### 500 Delegates Here For 3 Day State P. T. A. Meet

#### DINNER TONIGHT AT GYMNASIUM TO BE BRILLIANT AFFAIR

MRS. FAEGRE AND DR. L. R. MCGOWAN TALK AT OPENING SESSION

Brainerd entertained today an outstanding convention.  
On every hand P. T. A. delegates from all parts of the state, here to share in a three-day session in furtherance of the aims and ideals of the Parent-Teacher movement, received the cordial greetings of Brainerd, "We welcome you." Flags flew on down town streets in recognition of the meet.

Formalities of registration and greetings accompanied the opening sessions this morning and early this afternoon. With this part of the convention preliminaries over, the delegates immediately plunged into the heavy program of business matters confronting them.

Over 500 Delegates  
Warm autumnal weather brought forth an even larger attendance than previously expected. More than 500 delegates will have been registered before the close of the afternoon.

All business sessions are being conducted at the Washington high school.  
Look to Banquet  
Tonight's convention banquet in the school gymnasium held first place in the thoughts of delegates and visitors late this afternoon. The banquet promises to be one of the outstanding social and instructive affairs of the convention.

W. C. Cobb, superintendent of Brainerd schools, will preside at the banquet with Mrs. E. L. Baker, president of the State Association, introducing the honor guests. Dr. Garry Cleveland Myers, Division of Parental Hygiene, Cleveland College of Western Reserve University, Cleveland, Ohio, will be the banquet speaker.

The blue and gold colors of P. T. A. blended harmoniously with autumn leaves as final touches were put to the gymnasium in preparation for the banquet.

The Legion Auxiliary Band of Brainerd will lead the grand march to the banquet hall.

Welcomed in Speeches  
R. T. Campbell, Brainerd, presided at the opening session of the convention this afternoon at which time the local convention committee was introduced and speeches of welcome were given by Mayor Harry W. Creger and W. C. Cobb, Brainerd, and Mrs. T. E. Jones, 12th district chairman.

Deep Lawrence Substituted  
Mrs. Leonard Faegre, Child Welfare Institute, University of Minnesota, was substituted this afternoon for Dean J. C. Lawrence when the latter notified officials he would be unable to be present until tomorrow.

Mrs. Faegre discussed "The Significance of the White House Conference."  
A conference on mental hygiene with Dr. L. R. McGowan, Duluth, presiding, was a part of the afternoon program. The problems of freeing themselves from the home and the development of normal reactions to individuals of the opposite sex face adolescent boys and girls and parents must be able to recognize the signs of their changing attitudes, McGowan said during the discussion.

Every available hotel room in Brainerd is occupied for the convention and many delegates found lodging with private families. The morning session was devoted mainly to registration, with Mrs. E. L. Baker, state president, opening the conference proper at 1:30 p. m. Reports of the convention committees on rules, credentials, program and revisions followed.

Poster Contest Winners  
The Tilden School P. T. A. and the Hendricks P. T. A., St. Paul, won first and third places respectively in the state poster contest. Parkville P. T. A. of Parkville, Minn., placed second in the event. The awards were announced this afternoon.

Publicity chairman of the winning districts were: Tilden P. T. A., Mrs. F. L. Anderson; Parkville P. T. A., Mrs. Carl Tieberg; Hendricks P. T. A., Mrs. Geo. W. Mantor.

The poster contest was sponsored as a state-wide move to advertise the convention.

#### Government Granted Review in Oleo Case

Washington, Oct. 19.—(U.P.)—The government today was granted a supreme court review of its attempt, unsuccessful in lower courts, to impose a 10 cent a pound oleomargarine tax on "southern nut product," a compound of coconut and peanut oils with salt, water and coloring matter. Collection of about \$2,000,000 in taxes on this and similar products is involved, the government said.

#### "Make Medicine" to Lay "Evil Spirit" Hovering Over the Grave of Indian Princess at Cloquet

Cloquet, Minn., Oct. 19.—(U.P.)—Two grizzled "hot dog" stand men today watched apprehensively as an ancient Indian and an indomitable newspaper reporter "made medicine" over the grave of a recently buried Indian princess where the curious have seen "balls of fire" nightly.

The "medicine" will lay the "evil spirit" that is seeking to dig its way into the body of the princess, Lizzie Nagonah, daughter of a chief, according to Louis La Prairie, 83-year-old Chippewa who is in charge of the "medicine making."

Arriving with the ever-increasing line of tourists, the hot dog stand men also saw things last night.

"See the spirits?" Why, hell,

son, we saw two spirits. Didn't we, pal?" the older man turned to his partner.

"I'd say we all saw spirits," the partner confirmed.

Over at the burial ground the Indian's son and reporters were explaining about the medicine to tourists, all about how the white man had trampled on Lizzie's grave and Lizzie was a witch woman.

Across the road the farmer who had rented parking space on his farm to the curious, was holding forth with a different explanation: "Sure I seen spirits. But one of them fellows up here yesterday, he was a college professor, told me that it was all on account of marsh gas. Sure I seen 'em before, lotsa times."

#### PERSONNEL CHIEF SEEKS WAREHOUSE, RAIL BOARD POST

HENRY G. TEIGAN TO BE SUBJECT TO WISHES OF FARMER-LABOR PARTY

St. Paul, Minn., Oct. 19.—(U.P.)—Henry G. Teigan, chief of personnel service in the state department of administration and finance, today announced his candidacy for a post on the state railroad and warehouse commission next year.

Announcement of his entry into the race came as the three present railroad and warehouse commissioners, all republicans, prepared to defend themselves against two actions which sought their removal from office on malfeasance and neglect of duty charges.

The commission a week from today will defend itself against charges of alleged grain tampering made by State Senator Gerald T. Mullin, Minneapolis, at a hearing before Governor Floyd B. Olson as referee.

No action has been taken yet by Olson on charges filed by Mrs. Helen O'Brien Kessler, St. Paul, asking the commission's removal for failure to reduce rates charged by the Tri-State Telephone and Telegraph Co.

In his announcement of candidacy, Teigan said he will subject himself to the wishes of the farmer-labor party convention the latter part of May but expects to make a campaign.

"For years I have had a genuine interest in those matters with which the railroad and warehouse commission has to deal," Teigan said, "having been associated with the farmers' political movement for years in the marketing of grain."

#### EXTENDS HAND IN GREETING, SHOTS BARROOM OPERATOR

Chicago, Oct. 19.—(U.P.)—Another underworld "friendship murder" was recorded today as witnesses related how a man entered Matt Kolb's barroom, extended one hand in greeting and shot Kolb down with a revolver in the other.

The slaying of Kolb, a gambler and beer gang chief, was reminiscent of the Dion O'Bannon killing which years ago marked the start of all Chicago's gang wars. O'Bannon also was killed by a man who smiled in friendship as he pulled the trigger.

"Matt was just reaching out to shake hands, with a smile on his face, when the guy starts shootin'," said Robert Lutz, a bartender who witnessed the slaying in Kolb's roadhouse, the Club Morton.

"There were two of them," continued Lutz. "They came blusterin' in, brushing past the doorman like they owned the place. I didn't know either of 'em, but Matt did."

"One of 'em sings out 'Hello Matt' and puts out his hand. Matt smiled, stuck out his hand, and started to say something. Then the guy shot him seven times and ran."

Police were mystified, not because it was difficult to find a theory, but, on the contrary, because so many different theories sounded plausible.

Geneva, Oct. 19.—(U.P.)—Hope for pacific settlement of the Manchurian dispute between Japan and China without drastic action by the League of Nations grew today as Aristide Briand, skilled French diplomat, negotiated privately with the representatives of the two nations.

The league's council, which met in secret session this morning with Prentiss Gilbert, U. S. observer, present, went into recess subject to Briand's call while he presented a revised formula to Kenkichi Yoshikawa and Alfred Sze, Japanese and Chinese representatives. Briand was instructed by the council to try his hand, while sessions of the council were suspended to prevent further irritation of either side by formal action.

After a day of negotiations by Briand, the situation was regarded as better. The Chinese still refused to enter direct negotiations with Tokyo, while Japan refused to set a specific date for the withdrawal of her troops within the railway zone, but both were more conciliatory on other points.

Tokio, Oct. 19.—(U.P.)—The Japanese government today instructed its representative at Geneva, Kenkichi Yoshikawa, to reject proposals made by the League of Nations council for settlement of the Manchurian dispute.

The government considered requests for assurances that Japan would withdraw troops from Manchuria within three weeks and begin direct negotiations with China in one week as "still indicating suspicion of Japan's motives, which is intolerable."

It was understood Japan would make no concessions at Geneva and would insist that her soldiers acted in self defense in Manchuria.

Geneva, Oct. 19.—(U.P.)—The League of Nations council today instructed its president, Aristide Briand, to undertake direct negotiations with Japan and China for settlement of the Manchurian dispute.

League leaders regarded the situation as very much improved. Briand was instructed to undertake direct negotiations after a secret meeting of 12 member nations of the council and the American observer, Prentiss Gilbert. The Chinese and Japanese representatives were not present.

It was understood the council sought to revise the settlement formula in a manner acceptable to China and Japan and without further public discussions and acrimonious debates.

#### Sues Farmer for Firing Shotgun at His Son

St. Paul, Oct. 19.—(U.P.)—A suit for \$5,000 damages against a farmer who fired a shotgun charge at a group of seven boys who he claimed were stealing his watermelons was filed today by the father of one of the boys.

The farmer, Emory Vincent, of White Bear township posted himself in his melon patch August 25, 1930 when the shooting occurred. Frank Swanson, of White Bear, the father claims that his son James had to remain in bed for two months and suffered permanent disfigurement as the result of the shooting.

#### HOOVER PLEADS FOR NEIGHORLY SPIRIT IN RELIEF DRIVE

PRESIDENT OPENS NATIONWIDE DRIVE FOR UNEMPLOYMENT FUNDS

Fortress Monroe, Va., Oct. 19.—(U.P.)—Officially opening the nationwide drive for unemployment relief funds from now until Thanksgiving day, President Hoover made an appeal to his countrymen last night to help lift the needy out of their misery.

Mr. Hoover interrupted his week-end cruise to Yorktown to come ashore here to make the address, which was delivered into a microphone set up in the home of Brig. Gen. Stanley D. Embick, commander of the fort.

"The possible misery of helpless people gives me more concern than any other trouble this depression has brought us," the president said.

Calling for a neighbor-to-neighbor spirit to help the man in distress, Mr. Hoover asked that the local relief quotas be filled so that Thanksgiving day can be a day of great rejoicing.

"This organized effort is our opportunity to express our sympathy to lighten the burden of the heavy laden, and to cast sunshine into the habitation of despair," Mr. Hoover said.

"I appeal to the American people to make November 26 next the outstanding Thanksgiving day in the history of the United States; that we may say on that day that America has again demonstrated her ideals; that we have each of us contributed our full part; that we in each of our communities have given full assurances against hunger and cold among our people; that upon this Thanksgiving day we have removed the fear of the forthcoming winter from the hearts of all who are suffering and in distress—that we are our brother's keeper."

"Mr. Edison changed the face of the world in his lifetime and everything he achieved was beneficial to mankind. . . . He was the chief hero of my boyhood and he became my friend in manhood."

Harvey S. Firestone, tire manufacturer, third member of the famed group of three:

"Mr. Edison, we all know, had the greatest mind of any man in our generation. His unselfishness, his willingness to sacrifice himself for others, his power to concentration and his natural genius all combined to drive him at top speed in his determination to increase the comfort and the welfare of the people and to lift human happiness to its highest standard. . . ."

Guillermo Marconi, famous Italian inventor:

"His influence has gone beyond his immediate discoveries and eainermeated the whole realm of science. Edison furnished most of my inspiration to achieve results in scientific research."

Prof. Albert Einstein:

"Edison was one of the greatest of untiring creative spirits."

Philippe Runau Varilla, builder of the Panama Canal until the United States took it over:

"He will be known centuries hence as the outstanding benefactor of humanity and industry of our generation."

#### Expressions of Regret Pour In to Family of Inventive Genius

(By United Press)

Messages of condolence and sympathy from high public men, financiers, scientists, personal friends, and others of lesser renown, on the death of Thomas A. Edison, poured in to Mrs. Edison and the inventor's family at their home in Llewellyn Park today.

Among the hundreds of messages and statements were:

President Herbert C. Hoover:

"It is given to few men of any age or calling to become the benefactor of all humanity. That distinction came abundantly to Thomas Alva Edison, whose death in his 85th year has ended a life of courage and outstanding achievement. His lifelong search for truth, fruiting in more than 1,000 inventions made him the greatest inventor our nation has produced and revolutionized civilization itself."

"It is not only a debt for the great benefactions which he has brought to every American but also a debt for the honor he brought to our country. By his own genius and effort he rose from a newsboy and telegraphed relationship amongst men. His life has been a constant stimulative to confidence that our institutions hold open the door of opportunity to those who would enter."

"I mourn his passing as a personal friend over a quarter of a century. Henry Ford, automobile manufacturer, one of the triumvirate of famed men and intimate friends which consisted of Edison, Ford and Harvey Firestone:

"Mr. Edison changed the face of the world in his lifetime and everything he achieved was beneficial to mankind. . . . He was the chief hero of my boyhood and he became my friend in manhood."

#### 17 YEAR TERM FACES CAPONE AFTER JURY FINDS HIM GUILTY

JUDGE WILKERSON TO PRO-  
NOUNCE SENTENCE ON GANG  
CHIEFTAIN TUESDAY

Federal Building, Chicago, Oct. 19.—(U.P.)—Sentencing of Al Capone and hearing of motions on his conviction of income tax evasion was deferred today until 10 a. m. Friday.

United States District Judge James H. Wilkerson granted the postponement from the date set for tomorrow morning at the request of Defense Attorney Michael Ahern, who pleaded he and Attorney Albert Fink were tired out after the long trial and needed more time to prepare arguments.

Chicago, Oct. 19.—(U.P.)—Searface Al Capone, the gangster, for the first time in his life today faced a term in federal prison.

United States District Judge James H. Wilkerson announced he would pronounce sentence tomorrow morning. Under the jury verdict returned against the gangster chief late Saturday night, he faces a maximum of 17 years imprisonment and \$50,000 fine, as penalty for evading income tax.

As prelude to the final judgment on the major gangster of the times was the hearing, set for today, of Phil D'Andrea, his bodyguard, D'Andrea, arrested after carrying a revolver into federal district court to protect his chief, was scheduled for hearing on a contempt of court charge.

Capone was convicted of three felonies and two misdemeanors, listed among 23 counts in two indictments based on alleged evasion of \$215,000 tax on a six-year income of \$1,038,654.

A jury of small town tradesmen deliberated some eight and a half hours before finding him guilty. Their finding was returned at 11:13 p. m. Saturday.

Capone answered the verdict with the boast he "wouldn't stop fighting until a higher court has its say." That was corroboration of reports that his attorney would appeal the case to the United States supreme court.

Tomorrow they will argue motions to set aside the verdict and for a new trial.

Before Capone's appeal has been decided, he must answer a contempt of court citation for failing to appear before a federal grand jury. He was found guilty of feigning illness and sentenced to six months imprisonment.

Still pending, also, is his case based on alleged conspiracy to violate the prohibition laws.

#### Burial In Milan Later

BODY OF INVENTOR TO BE INTERRED TEMPORARILY IN NEW JERSEY CEMETERY

West Orange, N. J., Oct. 19.—(U.P.)—Thomas A. Edison will be buried temporarily at Rosedale cemetery here, a source close to the Edison family said today with final burial planned later for Milan, Ohio.

The plans for the permanent resting place are still incomplete, it was said, but include erection of a shrine at Milan for the noted inventor. It is likely that transfer to Milan, his birthplace, would be considerably later.

Milan, O., Oct. 19.—(U.P.)—Beside the bodies of two baby brothers and a sister who died before he was born, the body of Thomas Alva Edison will find its final resting place in Milan cemetery.

Overlooking the rolling hills where the inventor spent the first eight years of his life, the little burial plot also contains the remains of his cousin, Mrs. Nancy Wadsworth, who tended him in babyhood.

The United Press conveyed the plans to the birthplace where a second cousin, Miss Marietta Wadsworth, lives in the same modest establishment that has been unchanged with the passing of 84 years. The trim red brick house was bathed in the early morning sunlight which, shining through a single window, lit up the tiny bedroom where Edison was born.

"There must be some mistake," she murmured. "He may be buried here later but I don't think he would be for some time. Otherwise I think we would have been notified." The kindly white haired relatives had thought he would be buried in Port Huron, Mich., where the bodies of his father and mother and another brother are interred.

Miss Wadsworth said that Eliza, Samuel, Jr., and Carlisle Edison are buried in Milan cemetery. Their deaths occurred before the birth of Thomas, the youngest of seven children.

West Orange, N. J., Oct. 19.—(U.P.)—The body of Thomas Alva Edison, resting peacefully today in the library of his workshop surrounded by the tools, records and memories of his labor, will be buried in Milan, O., amid the scenes of his boyhood.

Today and Tuesday the public may pass the bier, then on the 52nd anniversary of Edison's perfection of the electric light, Wednesday, private funeral services will be attended by members of the family, their relatives and intimate friends.

President Hoover may attend. He has a conference scheduled with Premier Laval of France at 5 o'clock. The funeral, he understood, was to be at 3 o'clock.

And Edison's old camping friends, Henry Ford and Harvey Firestone, will be there. Mr. and Mrs. Firestone, and Mr. and Mrs. Harvey Firestone, Jr., were to leave Akron, O., today for West Orange. Ford will make the trip in a special train.

The thousands who wish a last view of the man to whom the world is indebted for many of its pleasures and conveniences will be granted that privilege in the inventor's workshop.

Today the casket was placed in the laboratory library on a bier in the center of the great silent room. The room is in the three story main building of the group that comprise the laboratory. It is high ceilinged, some 30 by 45 feet. The 84-year-old inventor spent years of research here productive of

#### ARGUE APPEAL OF LINGLE SLAYER IN ILLINOIS COURT

Springfield, Ill., Oct. 19.—(U.P.)—Appeal from the conviction of Leo V. Brothers, St. Louis gangster, on a charge of murdering Alfred J. Lingle, newspaper reporter, was argued before the Illinois state supreme court today.

The court was expected to hand down an opinion in the case in late December. At present Brothers is held in the Cook county jail, awaiting the result of his appeal from the 14-year sentence.

Reversible errors by the trial court and evidence contrary to the verdict were the points on which James C. O'Brien, Sr., Brothers' attorney, based his argument for a new trial.

One of the eye-witnesses who testified at the trial not only failed to identify Brothers as the slayer, but two others said he was not the man, O'Brien contended.

He declared it was prejudicial to Brothers when Judge Joseph Sabath withdrew a manslaughter verdict from the jury room without consulting the defense.

#### HOOVER PLEADS FOR NEIGHORLY SPIRIT IN RELIEF DRIVE

PRESIDENT OPENS NATIONWIDE DRIVE FOR UNEMPLOYMENT FUNDS

Fortress Monroe, Va., Oct. 19.—(U.P.)—Officially opening the nationwide drive for unemployment relief funds from now until Thanksgiving day, President Hoover made an appeal to his countrymen last night to help lift the needy out of their misery.

Mr. Hoover interrupted his week-end cruise to Yorktown to come ashore here to make the address, which was delivered into a microphone set up in the home of Brig. Gen. Stanley D. Embick, commander of the fort.

"The possible misery of helpless people gives me more concern than any other trouble this depression has brought us," the president said.

Calling for a neighbor-to-neighbor spirit to help the man in distress, Mr. Hoover asked that the local relief quotas be filled so that Thanksgiving day can be a day of great rejoicing.

"This organized effort is our opportunity to express our sympathy to lighten the burden of the heavy laden, and to cast sunshine into the habitation of despair," Mr. Hoover said.

"I appeal to the American people to make November 26 next the outstanding Thanksgiving day in the history of the United States; that we may say on that day that America has again demonstrated her ideals; that we have each of us contributed our full part; that we in each of our communities have given full assurances against hunger and cold among our people; that upon this Thanksgiving day we have removed the fear of the forthcoming winter from the hearts of all who are suffering and in distress—that we are our brother's keeper."

"I mourn his passing as a personal friend over a quarter of a century."

Henry Ford, automobile manufacturer, one of the triumvirate of famed men and intimate friends which consisted of Edison, Ford and Harvey Firestone.

"Mr. Edison changed the face of the world in his lifetime and everything he achieved was beneficial to mankind. . . . He was the chief hero of my boyhood and he became my friend in manhood."

#### FILES OUSTER SUIT AGAINST LONG IN RACE FOR GOVERNOR

Shreveport, La., Oct. 19.—(U.P.)—An ouster suit against Gov. Huey P. Long was filed in district court today by attorneys for Dr. Paul I. Cyr, former lieutenant governor and one of six claimants to Louisiana's gubernatorial position.

The suit asks that Long be ejected from office and that he pay Cyr the money he has drawn as salary since Cyr's oath as governor, Oct. 15.

Under the law, Long has ten days in which to file an answer. The suit is a regular ouster, and does not involve an injunction issue. Long will receive service both here and in Baton Rouge.

It further states Long has filed his credentials with the U. S. senate as senator-elect and that he was assigned an office and telephone number there on March 4, 1931.

#### Expressions of Regret Pour In to Family of Inventive Genius

(By United Press)

Messages of condolence and sympathy from high public men, financiers, scientists, personal friends, and others of lesser renown, on the death of Thomas A. Edison, poured in to Mrs. Edison and the inventor's family at their home in Llewellyn Park today.

Among the hundreds of messages and statements were:

President Herbert C. Hoover:

"It is given to few men of any age or calling to become the benefactor of all humanity. That distinction came abundantly to Thomas Alva Edison, whose death in his 85th year has ended a life of courage and outstanding achievement. His lifelong search for truth fruitfully in more than 1,000 inventions made him the greatest inventor our nation has produced and revolutionized civilization itself."

"It is not only a debt for the great benefactions which he has brought to every American but also a debt for the honor he brought to our country. By his own genius and effort he rose from a newsboy and telegraphed leadership amongst men. His life has been a constant stimulative to confidence that our institutions hold open the door of opportunity to those who would enter."

"I mourn his passing as a personal friend over a quarter of a century."

Henry Ford, automobile manufacturer, one of the triumvirate of famed men and intimate friends which consisted of Edison, Ford and Harvey Firestone.

"Mr. Edison changed the face of the world in his lifetime and everything he achieved was beneficial to mankind. . . . He was the chief hero of my boyhood and he became my friend in manhood."

Harvey S. Firestone, tire manufacturer, third member of the famed group of three:

"Mr. Edison, we all know, had the greatest mind of any man in our generation. His unselfishness, his willingness to sacrifice himself for others, his power to concentration and his natural genius all combined to drive him at top speed in his determination to increase the comfort and the welfare of the people and to lift human happiness to its highest standard."

"His influence has gone beyond his immediate discoveries and encompassed the whole realm of science. Edison furnished most of my inspiration to achieve results in scientific research."

Prof. Albert Einstein:

"Edison was one of the greatest of untiring creative spirits."

Phillippe Runau Varilla, builder of the Panama Canal until the United States took it over:

"He will be known centuries hence as the outstanding benefactor of humanity and industry of our generation."

Edward Branley, contemporary of Marconi in the development of wireless:

"I am filled with admiration at Edison's life."

Chicago, Oct. 19.—(U.P.)—Scarface Al Capone, the gangster, for the first time in his life today faced a term in federal prison.

United States District Judge James H. Wilkerson announced he would pronounce sentence tomorrow morning. Under the jury verdict returned against the gangster chief late Saturday night, he faces a maximum of 17 years imprisonment and \$50,000 fine, as penalty for evading income tax.

As prelude to the final judgment on the major gangster of the times was the hearing, set for today, of Phil D'Andrea, his bodyguard, D'Andrea, arrested after carrying a revolver into federal district court to protect his chief, was scheduled for hearing on a contempt of court charge.

Capone was convicted of three felonies and two misdemeanors, listed among 23 counts in two indictments based on alleged evasion of \$215,000 tax on a six-year income of \$1,038,654.

A jury of small town tradesmen deliberated some eight and a half hours before finding him guilty. Their finding was returned at 11:13 p. m. Saturday.

Capone answered the verdict with the boast he "wouldn't stop fighting until a higher court has its say." That was corroboration of reports that his attorney would appeal the case to the United States supreme court.

Tomorrow they will argue motions to set aside the verdict and for a new trial.

Before Capone's appeal has been decided, he must answer a contempt of court citation for failing to appear before a federal grand jury. He was found guilty of feigning illness and sentenced to six months imprisonment.

Still pending, also, is his case based on alleged conspiracy to violate the prohibition laws.

#### 17 YEAR TERM FACES CAPONE AFTER JURY FINDS HIM GUILTY

JUDGE WILKERSON TO PRONOUNCE SENTENCE ON GANG CHIEFTAIN TUESDAY

Federal Building, Chicago, Oct. 19.—(U.P.)—Sentencing of Al Capone and hearing of motions on his conviction of income tax evasion was deferred today until 10 a. m. Friday.

United States District Judge James H. Wilkerson granted the postponement from the date set for tomorrow morning at the request of Defense Attorney Michael Ahern, who pleaded he and Attorney Albert Fink were tired out after the long trial and needed more time to prepare arguments.

## Burial In Milan Later

BODY OF INVENTOR TO BE INTERRED TEMPORARILY IN NEW JERSEY CEMETERY

West Orange, N. J., Oct. 19.—(U.P.)—Thomas A. Edison will be buried temporarily at Rosedale cemetery here, a source close to the Edison family said today with final burial planned later for Milan, Ohio.

The plans for the permanent resting place are still incomplete, it was said, but include erection of a shrine at Milan for the noted inventor. It is likely that transfer to Milan, his birthplace, would be considerably later.

Milan, O., Oct. 19.—(U.P.)—Beside the bodies of two baby brothers and a sister who died before he was born, the body of Thomas Alva Edison will find its final resting place in Milan cemetery.

Overlooking the rolling hills where the inventor spent the first eight years of his life, the little burial plot also contains the remains of his cousin, Mrs. Nancy Wadsworth, who tended him in infancy.

The United Press conveyed the plans to the birthplace where a second cousin, Miss Marietta Wadsworth, lives in the same modest establishment that has been unchanged with the passing of 84 years. The trim red brick house was bathed in the early morning sunlight which, shining through a single window, lit up the tiny bedroom where Edison was born.

"There must be some mistake," she murmured. "He may be buried here later but I don't think he would be for some time. Otherwise I think we would have been notified." The kindly white haired relatives had thought he would be buried in Port Huron, Mich., where the bodies of his father and mother and another brother are interred.

Miss Wadsworth said that Eliza, Samuel, Jr., and Carlisle Edison are buried in Milan cemetery. Their deaths occurred before the birth of Thomas, the youngest of seven children.

West Orange, N. J., Oct. 19.—(U.P.)—The body of Thomas Alva Edison, resting peacefully today in the library of his workshop surrounded by the tools, records and memories of his labor, will be buried in Milan, O., amid the scenes of his boyhood.

Today and Tuesday the public may pass the bier, then on the 52nd anniversary of Edison's perfection of the electric light, Wednesday, private funeral services will be attended by members of the family, their relatives and intimate friends.

President Hoover may attend. He has a conference scheduled with Premier Laval of France at 5 o'clock. The funeral, he understood, was to be at 3 o'clock.

And Edison's old camping friends, Henry Ford and Harvey Firestone, will be there. Mr. and Mrs. Firestone, and Mr. and Mrs. Harvey Firestone, Jr., were to leave Akron, O., today for West Orange. Ford will make the trip in a special train.

The thousands who wish a last view of the man to whom the world is indebted for many of its pleasures and conveniences will be granted that privilege in the inventor's workshop.

Today the casket was placed in the laboratory library on a bier in the center of the great silent room. The room is in the three story main building of the group that comprise the laboratory. It is high ceilinged, some 30 by 45 feet. The 84-year-old inventor spent years of research here productive of (Continued on Page 7)

#### ARGUE APPEAL OF LINGLE SLAYER IN ILLINOIS COURT

Springfield, Ill., Oct. 19.—(U.P.)—Appeal from the conviction of Leo V. Brothers, St. Louis gangster, on a charge of murdering Alfred J. Lingle, newspaper reporter, was argued before the Illinois state supreme court today.

The court was expected to hand down an opinion in the case in late December. At present Brothers is held in the Cook county jail, awaiting the result of his appeal from the 14-year sentence.

Reversible errors by the trial court and evidence contrary to the verdict were the points on which James C. O'Brien, Sr., Brothers' attorney, based his argument for a new trial.

One of the eye-witnesses who testified at the trial not only failed to identify Brothers as the slayer, but two others said he was not the man, O'Brien contended.

He declared it was prejudicial to Brothers when Judge Joseph Sabath withdrew a manslaughter verdict from the jury room without consulting the defense.

## CARL WERNER IS SHOT BY HUNTER FLUSHING BIRD

RECOVERING FROM ACCIDENT  
PHEASANT HUNTING NEAR  
REDWOOD FALLS

Remaining bird shot pellets not previously removed were taken from the flesh of Carl J. Werner, 404 North 10th street, at the St. Joseph's hospital this afternoon as the Brainerd man was recovering from a charge of a shotgun shell, shot by another hunter while flushing pheasants near Redwood Falls, Minn., Sunday.

Werner received the shot at a range of 50 feet when the other hunter fired at a pheasant. Nine bird shot pellets entered his face and body.

The injured man was one of five Montgomery Ward employees taking part in the hunt with friends from Redwood Falls. Those in the party were: Werner, Richard Bush, Art Koop, Floyd Arnette, and Howard Halvorson.

## To Announce Opening of Laurel Fruit Store Early Next Week

Opening of the Laurel Fruit Store at 710 Laurel Street was scheduled for Saturday, October 17. Through unforeseen delays the opening has been postponed until Monday or Tuesday of next week.

Definite announcement will be carried in The Daily Dispatch when the opening date is determined.

The new store will be operated by A. O. Pangborn and R. L. Cook, of Milbank, S. D.

Both are experienced in the operation of this type of store and will carry a complete line of fresh fruits and vegetables.

On Wednesday evening the Staples Booster club went on record as endorsing the move to gather up and store for distribution potatoes and other food stuffs, which later can be used in distribution among the needy families.

E. A. Lea, William Brummer, and Harry Peterson were named as a committee to represent the club in co-operating with other committees in the move.

## STATE-WIDE EFFORT TO REDUCE ILLITERACY IN STATE ASSUMED BY MANY PARENT-TEACHER UNITS

If any Parent-Teacher association in the state Congress wishes to attempt a new and interesting project the coming year, why not enlist in the state wide effort to reduce illiteracy in Minnesota?

By reason of its position in every community a Parent-Teacher association is peculiarly adapted to assist in many educational projects of the day. Our state department of education recognizes this and has requested the cooperation of the Minnesota Congress of Parents and Teachers in the illiteracy program throughout the state.

A committee has been appointed by the Board of Managers. It is not the intention of this committee to start any sort of campaign or crusade against illiteracy but to work persistently and intelligently under the guidance of the Department of Education in order to open up avenues of inspiration and information to the adult population of Minnesota. Enrichment of adult life will result in a better parenthood. Better parenthood will result in healthier, happier childhood—the aim of the Parent-Teacher Association.

Every unit in the state Congress should lend ready and willing assistance to the cause of education when called upon to do so. We heard the call, shall we answer it?

(Write to your chairman of illiteracy for plan of work.)

## THE TAMMANY TROUBLES--

Tammany Hall and those affiliated with it always produce trouble, but the organization moves on and on with little to retard it. Tweed and Tammany brought disgrace to the country years ago, but it is doubtful if even Tweed was guilty as some of the present day leaders of the New York organization. Tammany is strictly a political body. Primarily it seeks the loot of the city, though it is not averse to participating in state and national spoils if opportunity offers, though it will betray its own party if such betrayal promises gain for its greedy members or if the success of a state or national figure of its own party threatens it in the least degree. Al Smith is the latest and most shining example of how Tammany can get the results it wants even against a man who was largely instrumental in its present day success and who was a very great credit to the organization.

John F. Curry is the present leader of Tammany and he frankly states that he "is interested in every democrat in the great city of New York." Dictator Curry makes no reference to the democrats of his state, nor does he seek to better the condition of his party people in other commonwealths. He is simply looking after the interests of his New York City constituents—and Tammany has always done this rather well. The district leader, the captain, the lieutenant and the bloc man all make it their business to know every voter by his given name. Loot from city contracts is often used to protect these voters from actual suffering and many juicy plums are bestowed where they will do the most good for Tammany, groceries, coal, physicians care and a host of other helps being provided in exchange for loyalty to the Tiger. The old time Tammany politician practices his art 365 days in every year, with the result that beneficiaries of the system feel they owe an obligation which must be discharged on election day.

The rest of the country damns Tammany and what it stands for, it always views with misgivings any candidate said to have the support of the Tiger for state or national office, but Tammany wields large influence in national conventions despite the distrust that accompanies its every move.

Just now the New York organization is being watched closely by both democrats and republicans. Smith was betrayed by Tammany but seems in good odor now and some of his recent statements are attributed as antagonistic to Gov. Roosevelt, leading democratic candidate for the presidency next year. The Smith people declare he received the highest vote ever given a democratic candidate and they may convince him that he should have another trial. At all times, however, no matter what the apparent situation is, nor how promising Tammany support may appear, the latter will bear watching.

Hoover will lead republicans, but can any democrat count on the loyal support of Tammany Hall?

## BREAK STRIKE BY ADVERTISING--

Roger Babson, recognized authority in financial matters and presumably the best posted man in the country regarding conditions in different sections, advises business men to break the buyers' strike which has been in existence for many years by a liberal use of advertising, showing the buying public that this is the time to get the full worth of every dollar they spend. He shows that a few years ago it was fashionable to spend money lavishly in an effort to impress others, while now the pendulum has swung the other way and people are proud of their ability to withhold buying orders. Neither policy is the correct one, but normal buying should go forward at this time without interruption though extravagance or the purchase of articles not necessary is to be avoided now as it should have been a few years ago.

Babson shows there are two classes of boarders—those who are well-to-do, but who refuse to spend because it is no longer fashionable to splurge in scattering their money—and those who earn but who have the dread that something unforeseen may occur to throw them out of employment. Both these classes have filled the banks with money, taking it out of circulation at a time when it could do the most good both for those who have it and those who would get it in case moderate buying was again in order. In many instances safety deposit boxes hold the hoard out of the channels of trade, in some instances banks have refused further deposits because they already hold more money than they can profitably and safely handle.

There is one certain way to help the situation and it is a profitable way, also. This is a buyers' market if ever there was one and the home, merchandise or investment bought at the low level which prevails now is certain to yield a good return to the one who grasps the opportunity. Merchants and those having anything to sell should impress upon customers and those with whom they come in contact that they will not only increase their own holdings or their own comforts by careful buying now, but they will also aid their less fortunate neighbor by wise expenditures at this time. Advertise it and sell it. Don't waste and don't hoard.

The influx of duck hunters this year has not been so great in this vicinity because of the shortened season, but many Brainerd sportsmen have been after the elusive pheasant in counties where an open season has been declared. There can be no big bags of pheasants because of restrictions properly placed on the hunters, three birds per day being the limit. Local duck hunters report only fair sport in the nearby lakes, though the big flight from the north is yet to come, probably after the shooting season has closed here. This closing is October 31st, at sundown.

Some states have enacted legislation against ownership of machine guns, possession being prima facie evidence of ownership, and severe penalties being fixed for the guilty. There is no reason on earth for the ownership of a machine gun by private citizens in time of peace and every state should legislate against them effectively. The professional gunman would often be handicapped if deprived of his spray gun. Their manufacture and sale to individuals should be stopped at the source.

The fatalities via the auto route this autumn have been slightly higher than a year ago, though dry weather and safe highways have doubtless had a tendency to hold down deaths. Always there will be the reckless driver, the gin guzzler who has no business on the road, and a host of others. Authorities can only do their best to minimize the perils by keeping constantly after those who threaten lives and property by their irresponsibility.

## BEGIN HERE TODAY

Old Mrs. Jupiter, wife of the millionaire automobile manufacturer, gives an engagement dinner and dance for her secretary and protégé, MARY BARKLEY, who is to marry DIRK RUYTHER, son of a blue-blooded family.

Mary receives a telephone call from her scapegrace brother, EDDIE, saying he is in trouble and must see her. The house is strictly guarded against "gate-crashers" because Mrs. Jupiter is wearing the famous Jupiter rubies. Mary arranges for Eddie to be admitted secretly. When she goes upstairs to meet him she finds Mrs. Jupiter robbed and murdered in her room. Running to find Dirk she sees him in the garden with CORNELIA TABOR, his childhood sweetheart.

## NOW GO ON WITH THE STORY CHAPTER IV

INSPECTOR KANE glared at the young detective with wrath that was almost apoplectic.

"Gone?" he bellowed. "What do you mean, gone? I left orders no body was to leave the premises till they had permission. How the hell could they be gone?"

Spence came wearily into the room and was hailed by the detective.

"Hey!" he demanded. "You know anything about this?"

Before the butler could reply, Mr. Jupiter appeared in the doorway, leaning heavily on his stick.

"Oh, Mr. Jupiter," Inspector Kane said, dropping his voice respectfully. "We may be on the track of something. I hear one of your girls has disappeared, and a chauffeur with her."

The millionaire stared about the brilliant almost empty room, curiously; then made an obvious attempt to focus his mind on what the other man was saying.

"One of the girls, eh?" His voice was flat and weak; to Mary the sound was almost unbearably shocking. A man's grief is not pretty to see or to hear. "You looking for Bessie?"

He cleared his throat; his voice seemed a little strange. "I sent her out with Tom over an hour ago, to send a cable. My son, you know," he explained. "He's in Europe. I wanted to let him know. They ought to be back by now."

Kane was obviously displeased, but it was plain he had no taste for reproving the old man. In spite of the fact that he had just come from the room where his dead wife lay, he seemed to be looking and listening for her. His eyes roved dully about the room; his nervous hand clasped and unclasped on the handle of his cane.

"That's O. K., governor," the inspector growled. "Make a note of that, Hayes, and get their stories tomorrow. Everybody get to bed now and I'll be back tomorrow and pick up the loose ends. Anything turns up in the meantime, you'll be informed."

THEY were all gone, and Mary and Dirk stood together at the bottom of the stairs, his arms folded about her, his cheek against hers.

"I can't go up there! I can't!" Mary shuddered.

"You don't have to. Come home with me."

"We mustn't rouse your household. No, I'll stay here. Eddie will call, and I don't want to miss him."

"Of course, I understand. But you'll be all right? You won't worry?"

"I'm dead. I'll sleep like a log."

To change the current of her thoughts, and for other reasons purely his own, he drew her to him and kissed her.

"I'm glad it was something really important that kept you," he said at last, with grim humor.

"Kept me?"

Mary and Dirk stood together at the bottom of the stairs, his arms folded about her, his cheek against hers.

"You said you'd be right back, but it seemed like hours. I thought I was stuck with Connie on my hands for life."

"So did I." Then, as the scene in the lower garden came back to her, "What on earth were you doing to her, anyway?"

"I wasn't doing anything to her!"

"Then what was she screaming about?"

"Ah," his voice held the disgust of a male for all females and their incomprehensible ways. "She said she was going to throw herself into the pool. Two feet deep, and she knows it."

Mary laughed at that, and rumpled his hair.

"She must love you a lot."

"She loves herself. She's a spoiled brat. Well, anyhow, she's sailing to Florida soon."

"I hope she seasick."

"I hope she drowns."

They grinned at each other. But Mary's smile soon faded. There was too much on her mind.

"If I knew where Eddie was—"

Mary would tell—and it was almost morning. With Dirk's assurance that he would go himself and try to solve the mystery of Eddie's disappearance as soon as he had had some sleep, she went off to bed in a somewhat calmer frame of mind.

BY 9 o'clock next morning the telephone had begun shrilling. Newspapers, florists, men about the funeral arrangements, perfect strangers—Mary had the murdered girl's name on her tongue.

What a ghastly business! She shuddered and went down after breakfast.

seemed to be swarming with strangers. Hordes of newspaper men had arrived on the scene shortly after daybreak and Mr. Jupiter immediately ordered that they be given the run of the house.

Mary, meeting him in the hall, was amazed at the new vigor that seemed to have come to him. His eyes glittered naturally as he stamped about, now and then pounding the floor resoundingly with his cane. Mr. Ruyther, Sr., was with him, and horrified beyond words at finding his old friend occupied in acting as guide around his own premises for a flock of "pressmen."

"J. J., I beg you to let me attend to this!" Mary heard him appealing. "I'll have this pack out of here in no time. Do you realize what they'll make of this? It'll be plastered on the front page of every yellow sheet in the land!"

But the millionaire was obdurate. "It's all necessary. All necessary," was all he would say.

"Necessary?" Who says it's necessary?" the old lawyer demanded.

"Inspector Kane. And I believe him. Ah, you don't know how I feel, Ruyther! Give them all the help we can, Kane says, and in turn they'll do their best to help us. You never know, they may turn up something that will be just the clue we need."

"Nonsense. They'll just trample the place till there won't be any clues left. They'll tell everything we know and a great deal we don't know, and the criminal will know every move that's being made to find him."

"You're a lawyer, Pote. Kane knows best. He and his men were here at sun-up this morning, going

over the grounds with a fine-tooth comb. Whatever he's found, he'll keep his own counsel until he's ready to give it out."

The telephone again. Mary ran to answer it, almost stumbling in her eagerness. But it was only Mrs. Ruyther, anxious about Dirk.

"He hasn't come in yet, and I'm nearly frantic! Is he there, by any chance?"

"He's not here, but I'm sure it's all right," Mary told her. "He—he had some business that couldn't wait."

"Well!" Mrs. Ruyther expelled an outraged breath. "It must have been pressing!" Mary began to anticipate what it would be like to be married to an only child.

Dirk had gone immediately to look for Eddie, then. Crazy, lovable Dirk—he'd be dead for sleep. But he knew what would still her worry, and had gone straight after it at once.

THERE were papers of Mrs. Jupiter's to be gone over. Mary, sorting them as she turned them over to her future father-in-law's inspection, met his solicitous glance with a wan smile.

"Bad business, my child, bad business," he said, shaking his head. "What are you here for? Why don't you and that boy of mine take the car, and go away for the day? They'll be putting your picture in the paper next!" Mary knew his objection to that was more on his wife's account than his own.

"They have already," she smiled. "Didn't you see that angelic pose in the afternoon papers yesterday?"

"What's that? My God, we must keep you out of this!" His alarm shocked her. She hastened to remind him that the pictures in question had been captioned, "To Mary Rising Young Barrister in May."

"Oh, Oh. That's different." His relief was profound.

But the incident unnerved her. More than ever she knew that secrecy was necessary—that she must be on her guard.

Mrs. Ruyther had never been too cordial to her. A daughter-in-law without a penny's dowry was no catch for Dirk. No doubt she had thought it all settled that it was to be Cornelia; had accustomed herself to the thought of what Cornelia's money, Cornelia's connections, could do for her son's career.

Mr. Jupiter sat crouched over the library table, his arms outflung upon it, staring at the papers Ruyther shuffled in his hands.

"Mary, my dear," he said, coming out of his daze long enough to notice her. "Is Kane still about, have you noticed? Is there anything new?"

The distress in her face answered him; he looked ill. Suddenly he brushed the papers out of the lawyer's hands recklessly.

"Put them up! Put them up! We won't bother with them. Ruyther, do you realize it's been hours, now, and there's nothing—nothing!"

He lifted his doubled fists and shook them toward the ceiling, his face working with grief. Then he seemed to collapse into his chair, and sat breathing heavily. One fist beat the table slowly; the knuckles were white and tense.

"Till that son of a— I've got something to live for," he jerked out. "I'll never rest till I meet him, if it takes the rest of my life and every nickel I've got!"

Outside in the hall, the telephone rang.

## Sister MARY'S KITCHEN

By SISTER MARY  
NEA Service Writer

If you remember that there are certain well established rules which govern the selection of the food you feed your family, meal planning is not difficult.

The first rule in meal planning is this: a balanced diet must be maintained. Unless one is dieting under a physician's supervision, protein, carbohydrate and fat must be supplied in definite proportions. It has been estimated that the minimum calorie requirement for a day for adults is 12 calories to each pound of body weight. Children need more food in proportion to their weight than adults. Physically active persons need more fuel or calories than those of sedentary habits. Of these calories, ten to fifteen

**Tomorrow's Menu**  
BREAKFAST: Grape fruit, cereal, cream, crisp broiled bacon and liver, reheated rolls, milk, coffee.  
LUNCHEON: Creamed oysters with pimientos on toast, apple and celery salad, ginger bread, tea.  
DINNER: Baked and stuffed shoulder of veal, braised cabbage and carrots, tomato and green pepper salad, sweet potato pie, milk, coffee.

per cent should be protein, twenty-five

per cent fat and the remaining sixty to sixty-five per cent carbohydrates.

The second rule to keep in mind is the importance of providing organic salts or minerals in necessary amounts. Calcium, phosphorus, iron, iodine, copper and other minerals are essential factors in every meal.

Third, the "protective foods" or vitamins are imperative.

Fourth, a quart of milk a day for each adult should be used either in cooking or as beverage.

Fifth, each meal should contain something crisp which requires thorough mastication for the sake of the teeth.

Supplementing these constituents, bulky foods and water must be included.

**Body-building Food**  
The function of each group of foods is significant. Mary Swartz Rose states that "protein food has an absolute monopoly on the nitrogen supply of the body" and that "nitrogen enters into the construction of body proteins which are essential to the life of every cell and constitute the most prominent part of muscle tissue. A child cannot grow and form strong muscles without it; a full-grown adult cannot keep in health without it."

Carbohydrates furnish heat and energy and fats give energy and reserve force.

Organic salts or ash constituents are cleansers and natural blood tonics. They affect assimilation and are indispensable to sound teeth and strong bones. The efficiency of each mineral salt is increased by the presence of the other in proper amounts.

The vitamins provide health and vigor and the power to grow. They steady nerves and have a marked effect on the appetite. They are, in fact, "protective" substances, for their presence

insures against the deficiency diseases.

## THE TAMMANY TROUBLES--

Tammany Hall and those affiliated with it always produce trouble, but the organization moves on and on with little to retard it. Tweed and Tammany brought disgrace to the country years ago, but it is doubtful if even Tweed was guilty as some of the present day leaders of the New York organization. Tammany is strictly a political body. Primarily it seeks the loot of the city, though it is not averse to participating in state and national spoils if opportunity offers, though it will betray its own party if such betrayal promises gain for its greedy members or if the success of a state or national figure of its own party threatens it in the least degree. Al Smith is the latest and most shining example of how Tammany can get the results it wants even against a man who was largely instrumental in its present day success and who was a very great credit to the organization.

John F. Curry is the present leader of Tammany and he frankly states that he "is interested in every democrat in the great city of New York." Dictator Curry makes no reference to the democrats of his state, nor does he seek to better the condition of his party people in other commonwealths. He is simply looking after the interests of his New York City constituents—and Tammany has always done this rather well. The district leader, the captain, the lieutenant and the bloc man all make it their business to know every voter by his given name. Loot from city contracts is often used to protect these voters from actual suffering and many juicy plums are bestowed where they will do the most good for Tammany, groceries, coal, physicians care and a host of other helps being provided in exchange for loyalty to the Tiger. The old time Tammany politician practices his art 365 days in every year, with the result that beneficiaries of the system feel they owe an obligation which must be discharged on election day.

The rest of the country damns Tammany and what it stands for, it always views with misgivings any candidate said to have the support of the Tiger for state or national office, but Tammany wields large influence in national conventions despite the distrust that accompanies its every move.

Just now the New York organization is being watched closely by both democrats and republicans. Smith was betrayed by Tammany but seems in good odor now and some of his recent statements are attributed as antagonistic to Gov. Roosevelt, leading democratic candidate for the presidency next year. The Smith people declare he received the highest vote ever given a democratic candidate and they may convince him that he should have another trial. At all times, however, no matter what the apparent situation is, nor how promising Tammany support may appear, the latter will bear watching.

Hoover will lead republicans, but can any democrat count on the loyal support of Tammany Hall?

Both these classes have filled the banks with money, taking it out of circulation at a time when it could do the most good both for those who have it and those who would get it in case moderate buying was again in order. The distress in her face answered him; he looked ill. Suddenly he brushed the papers out of the lawyer's hands recklessly.

"Put them up! Put them up! We won't bother with them. Ruyther, do you realize it's been hours, now, and there's nothing—nothing!"

He lifted his doubled fists and shook them toward the ceiling, his face working with grief. Then he seemed to collapse into his chair, and sat breathing heavily. One fist beat the table slowly; the knuckles were white and tense.

"Till that man is found, I've got something to live for," he jerked out. "I'll never rest till I meet him, if it takes the rest of my life and every nickel I've got!"

Outside in the hall, the telephone rang.

## Sister MARY'S KITCHEN

By SISTER MARY  
NEA Service Writer

If you remember that there are certain well established rules which govern the selection of the food you feed your family, meal planning is not difficult.

The first rule in meal planning is this: a balanced diet must be maintained. Unless one is dieting under a physician's supervision, protein, carbohydrate and fat must be supplied in definite proportions. It has been estimated that the minimum calorie requirement for a day for adults is 12 calories to each pound of body weight. Children need more food in proportion to their weight than adults. Physically active persons need more fuel or calories than those of sedentary habits. Of these calories, ten to fifteen

per cent should be protein, twenty-five

per cent fat and the remaining sixty to sixty-five per cent carbohydrates.

The second rule to keep in mind is the importance of providing organic salts or minerals in necessary amounts. Calcium, phosphorus, iron, iodine, copper and other minerals are essential factors in every meal.

Third, the "protective foods" or vitamins are imperative.

Fourth, a quart of milk a day for each adult should be used either in cooking or as beverage.

Fifth, each meal should contain something crisp which requires thorough mastication for the sake of the teeth.

Supplementing these constituents, bulky foods and water must be included.

Body-building Food  
The function of each group of foods is significant. Mary Swartz Rose states that "protein food has an absolute monopoly on the nitrogen supply of the body" and that "nitrogen enters into the construction of body proteins which are essential to the life of every cell and constitute the most prominent part of muscle tissue. A child cannot grow and form strong muscles without it; a full-grown adult cannot keep in health without it."

Carbohydrates furnish heat and energy and fats give energy and reserve force.

Organic salts or ash constituents are cleansers and natural blood tonics. They affect assimilation and are indispensable to sound teeth and strong bones. The efficiency of each mineral salt is increased by the presence of the other in proper amounts.

The vitamins provide health and vigor and the power to grow. They steady nerves and have a marked effect on the appetite. They are, in fact, "protective" substances, for their pres-

ence insures against the deficiency diseases.

## COSSACK CHORUS AGAIN THRILLS AUDIENCE HERE

SUCCESS GREETING OPENING CONCERT OF MUSICAL CLUB IN SCHOOL AUDITORIUM

By Mrs. W. C. Cobb  
The first concert in the Brainerd Musical club course for 1931-32, the Cossack Chorus, was highly satisfactory.

Holding these concerts in the high school auditorium is an experiment which promises to prove a successful one. The large auditorium was well filled, the students who came as guests of the club, were quiet and attentive, and the acoustics were excellent. The pianissimo tones were clearly heard and no amount of volume was displacing.

The Cossacks were not as colorful in their evening attire of long black, full-skirted coats, relieved only by a bit of white braid on the breast and white stocks, as in their day-time military garb of red breeches, short jackets and clanking swords, but their tone coloring was just as good as on their previous visit.

Excellent Tone Blending  
As they sang entirely without accompaniment, the excellent tone-blending, as in the "Love Song," by Abt, and "The Ballad of Kudear," by Sokoloff, served to set off the solo parts.

The tenor solo by Mr. Klich in the "Love Song" gave the audience their first big thrill. Although they had had a hint of the quality of his voice in the first number, "Dreaming Lake," by Pfeil, this number displayed both its sweetness and its clear, high tones. In "Snowstorm," by Warlamoff, these high, clear tones reached their climax. The audience was so enthusiastic that the entire solo was repeated.

In the "Cossack Prayer Before the Battle," the deep organ tones of the basso-profundo, Mr. Kolesnetoff, were given their first adequate opportunity, although in each number these deep tones served to set off baritone and high tenor solos. But the mellow depth of his voice was best illustrated in "Evening Bella," which closed the Medley of Folk Songs arranged by the artist conductor, Sergei Sokoloff.

Repeats Demanded  
Mr. Grishoff had the baritone solo in the "Ballad of Kudear" and again the audience expressed its approval by such hearty applause that the number was repeated.

Besides these repeated numbers, "Glow Worm," "Mother Macree" and "Dixie Land" were added to the generous program. The first was the encore after the Cossack "Prayer Before the Battle," which was sung with verve and patriotic fervor. It was the combination of patriotic feeling and dramatic power, combined with excellent ensemble work, in the Cossack "March" that called forth a burst of applause that was responded to by the popular "Mother Macree."

Added to their dramatic power was a sense of humor which was well brought out in "A Cossack Party," by Davidovsky. This was given when they were here before and was well received. It represents a Cossack giving a party to his pals while his wife is away. They are having a gay time when they hear that the wife of the host is returning and bringing with her the wives of all the guests. They try to escape, or conceal themselves, but it is too late. "The wives enter and the argument begins." This argument between deep male voices and high soprano, the hilarity preceding it, the confusion and hurry and scurry before the wives enter are all very well done. So well done, in fact, that the audience demanded a repetition.

It seems scarcely necessary to mention the talented director, Sergei Sokoloff, for his work speaks for itself in the finished, artistic product, in the precision, modulation and exquisite blending of tone achieved by his vocal orchestra.

## Farewell Dance Given for William James

Nokay Lake—A farewell dance was given in honor of William James Saturday night at the Nokay Lake hall. A large number of people attended and a good time was enjoyed.

Miss Eleanor Anderson, a student of the Brainerd high spent the weekend with her parents, Mr. and Mrs. David Anderson.

Mr. and Mrs. Peter Johnson, Mr. and Mrs. Jens Jensen, Mr. and Mrs. Oliver Swell and Mrs. O. T. Swell entertained friends at a chicken dinner at the Johnson home Sunday. The guests were Mrs. Lars Twist and sons Gerd and Kenneth and daughters Dorah and Theresa of St. Cloud, Mr. and Mrs. Arthur Blood and son Dennis of Clear Lake, Mr. and Mrs. Nels Johnson and daughter Loretta, Mr. and Mrs. Bert Johnson and daughter Lavonne and Miss Esther Swelland. Mr. and Mrs. Leroy Jensen of Becker, Minn., were also to be there but could not come.

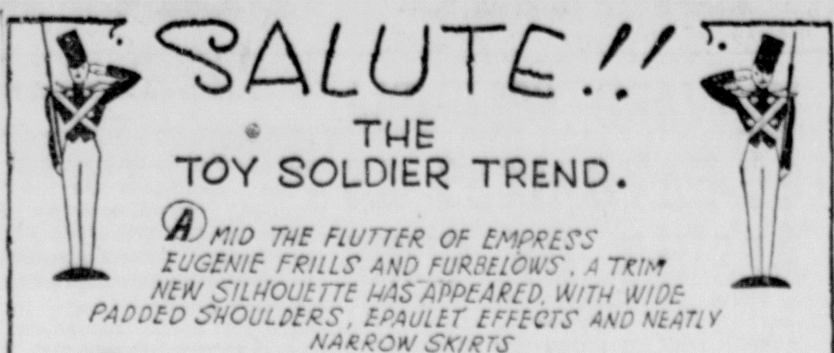

## Succumbs After Illness of Over Five Years

## PATENTED PROCESS REMOVES GUESSWORK FROM ROASTING

Automatic Control of Heat Insures Exactness. Hills Bros. Coffee Has Matchless Flavor

There are many risks attached to roasting coffee by ordinary methods. For a man must guess when the roast is right. If he misses his guess, the flavor of the coffee usually suffers.

Hills Bros. eliminated guesswork when they invented and patented Controlled Roasting—an automatic process that develops the fullest flavor in every berry of the blend!

As the accuracy of the hour-glass depends upon an even, continuous flow... a little at a time... so the unvarying flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously... a little at a time. Automatic control of heat and flow of coffee does what ordinary methods often fail to do. Every pound is roasted to the same degree of perfection, and every pound has the same fine flavor.

To preserve this delicious flavor, Hills Bros. pack their coffee in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee can't go stale! Order some today. Ask for it by name, and look for the Arab trade-mark on the can.

## COSSACK CHORUS AGAIN THRILLS AUDIENCE HERE

SUCCESS GREETING OPENING CONCERT OF MUSICAL CLUB IN SCHOOL AUDITORIUM

By Mrs. W. C. Cobb  
The first concert in the Brainerd Musical club course for 1931-32, the Cossack Chorus, was highly satisfactory.

Holding these concerts in the high school auditorium is an experiment which promises to prove a successful one. The large auditorium was well filled, the students who came as guests of the club, were quiet and attentive, and the acoustics were excellent. The pianissimo tones were clearly heard and no amount of volume was displeasing.

The Cossacks were not as colorful in their evening attire of long black, full-skirted coats, relieved only by a bit of white braid on the breast and white stocks, as in their day-time military garb of red breeches, short jackets and clanking swords, but their tone coloring was just as good as on their previous visit.

Excellent Tone Blending  
As they sang entirely without accompaniment, the excellent tone-blending in the hummed accompaniments, as in the "Love Song," by Abt, and "The Ballad of Kudear," by Sokoloff, served to set off the solo parts.

The tenor solo by Mr. Klich in the "Love Song" gave the audience their first big thrill. Although they had had a hint of the quality of his voice in the first number, "Dreaming Lake," by Pfeil, this number displayed both its sweetness and its clear, high tones. In "Snowstorm," by Warlamoff, these high, clear tones reached their climax. The audience was so enthusiastic that the entire solo was repeated.

In the "Cossack Prayer Before the Battle," the deep organ tones of the basso-profundo, Mr. Kolesentoff, were given their first adequate opportunity, although in each number these deep tones served to set off baritone and high tenor solos. But the mellow depth of his voice was best illustrated in "Evening Bells," which closed the Medley of Folk Songs arranged by the artist conductor, Sergei Sokoloff.

Repeats Demanded  
Mr. Grishoff had the baritone solo in the "Ballad of Kudear" and again the audience expressed its approval by such hearty applause that the number was repeated.

Besides these repeated numbers, "Glow Worm," "Mother Macree" and "Dixie Land" were added to the generous program. The first was the encore after the Cossack "Prayer Before the Battle," which was sung with verve and patriotic fervor. It was the combination of patriotic feeling and dramatic power, combined with excellent ensemble work, in the Cossack's "March" that called forth a burst of applause that was responded to by the popular "Mother Macree."

Added to their dramatic power was a sense of humor which was well brought out in "A Cossack Party," by Davidovsky. This was given when they were here before and was well received. It represents a Cossack giving a party to his pals while his wife is away. They are having a gay time when they hear that the wife of the host is returning and bringing with her the wives of all the guests. They try to escape, or conceal themselves, but it is too late. "The wives enter and the argument begins." This argument between deep male voices and high sopranos, the hilarity preceding it, the confusion and hurry and scurry before the wives enter are all very well done. So well done, in fact, that the audience demanded a repetition.

It seems scarcely necessary to mention the talented director, Sergei Sokoloff, for his work speaks for itself in the finished, artistic product, in the precision, modulation and exquisite blending of tone achieved by his vocal orchestra.

## Farewell Dance Given for William James

Nokay Lake—A farewell dance was given in honor of William James Saturday night at the Nokay Lake hall. A large number of people attended and a good time was enjoyed.

Miss Eleanor Anderson, a student of the Brainerd high school, spent the weekend with her parents, Mr. and Mrs. David Anderson.

Mr. and Mrs. Peter Johnson, Mr. and Mrs. Jens Jensen, Mr. and Mrs. Oliver Sweland and Mrs. O. T. Sweland entertained friends at a chicken dinner at the Johnson home Sunday. The guests were Mrs. Lars Twist and sons Gehard and Kenneth and daughters, Dora and Theresa of St. Cloud, Mr. and Mrs. Arthur Blood and sons, Dennis of Clear Lake, Mr. and Mrs. Neil Johnson and daughter Loretta, Mr. and Mrs. Bert Johnson and daughter Lavonne and Miss Esther Sweland. Mr. and Mrs. Leroy Jensen of Becker, Minn., were also to be there but could not come.

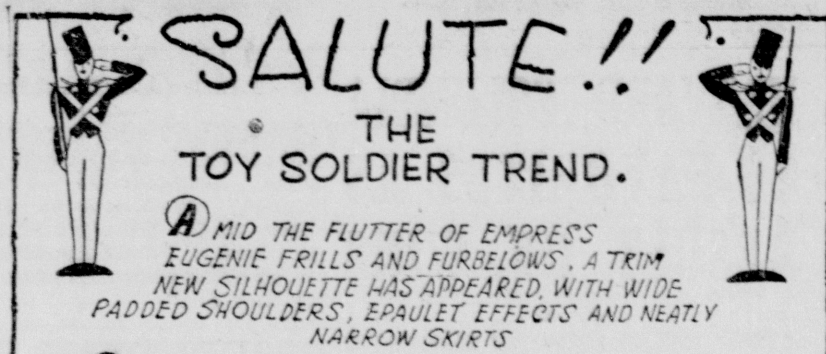

## Succumbs After Illness of Over Five Years

Iron Point—Mrs. August Jokela who has been ill for five years, died Friday afternoon at her home near Jenkins. The funeral and burial was in Brainerd Monday afternoon.

Business callers at Jokela's Sunday were Mr. and Mrs. Frank Hill and John Kater.

Mrs. H. W. Jokela spent Tuesday with her sister, Mrs. H. C. Johnson. Harold Tollefsrud called at Seabergs Monday evening.

## SCHOOL DISTRICT DISSOLUTION PROBE SET FOR NOVEMBER 7

The board met in adjourned session on Saturday, Oct. 3, 1931 at 10 a. m. All members present.

Minutes of the meetings held Sept. 1 and Sept. 14, 1931 were read and duly approved.

The report of the mining inspector for Sept. was accepted and ordered placed on file.

Mr. Kinney appeared before the board regarding the improvement of a road in Baxter township. No action was taken.

Ole Wyatte again appeared before the board regarding a road in Sec. 30, Twp. 134, Range 28. Andrew Larson also appeared before the board. On motion of Commissioner Lowey seconded by Commissioner Dewing, the board is to view this proposed road on Oct. 19, 1931 at 8:30 a. m.

Walter Peterson appeared before the board requesting an appropriation for the improvement of State Aid Road No. 2 in the Town of St. Mathias. On motion of Commissioner Dewing seconded by Commissioner Lowey, one mile of this road west from Henry Langevin's corner was authorized graded.

Pursuant to advertisement, bids were received for a pull-type grader as follows:

Stockland Equipment Sales Co.—Stockland Greyhound grader, standard equipment plus canopy top, curtains and pneumatic tires, \$1182.00.

J. D. Adams Co.—Adams High Speed Tractor, Trailer, Maintenance, grader, standard equipment plus steel cab with curtains and steel spring platform, \$1230.12.

Rosko Brothers—Shawnee grader, standard equipment plus cab and curtains, \$1211.00.

Thorman W. Rosholt Co.—Ryan Economy dual blade grader, standard equipment plus canopy and curtains, \$1200.00.

On motion of Commissioner Dewing seconded by Commissioner Lowey, the contract was awarded to the Stockland Equipment Sales Co. as per their bid.

On motion of Commissioner Lowey seconded by Commissioner Johnstone, a time clock is to be included on the new grader.

The report of the Child Welfare Board for Sept. was accepted and ordered placed on file.

On motion of Commissioner Johnstone seconded by Commissioner Anderson, John Humphrey was allowed a partial estimate of \$1079.43 on Job 3120.

On motion of Commissioner Anderson seconded by Commissioner Johnstone, hearing was ordered on same for Nov. 7, 1931 at 2 p. m. and the auditor directed to issue the necessary notices.

On motion of Commissioner Lowey seconded by Commissioner Dewing, a Skeigas Estate Restaurant Gas Range

was authorized purchased from J. C. Clausen for \$165.75.

On motion of Commissioner Anderson seconded by Commissioner Johnstone, the auditor was directed to advertise for bids for the improvement of 3.6 miles of W. L. Road No. 5 west of State Aid Road No. 4 in the Town of Fairfield for Friday, Oct. 30, 1931 at 4:30 p. m.

On motion of Commissioner Johnstone seconded by Commissioner Anderson, the county engineer was instructed to furnish estimate of cost of proposed road leading from some point near Crosby and continuing across the Mississippi river to connect up with W. L. Road No. 4 in Center Township.

The following applications were granted subject to the approval of the Minnesota Tax Commission:

ALADDIN Has 10 Big Features

# NORTHWESTERN LONE SURVIVOR IN BIG TEN GRID RACE

## WILDCATS FACING BIG TEST IN GAME WITH OHIO STATE

OHIO STATE TOPPLES MICHIGAN AND PURDUE LOSES TO WISCONSIN

Chicago, Oct. 19.—(U.P.)—With two of the favorites already benten, the Big Ten football race took on added interest today with the prospect of a series of surprises during the remainder of the season.

Michigan, Purdue and Northwestern were favored to go through their conference schedules undefeated and tie for the title, but the second week of the campaign finds Michigan and Purdue already toppled and Northwestern facing a severe test in its first Big Ten game this week.

Northwestern plays Ohio State, Michigan's conqueror, at Columbus Saturday and the Wildcats can breeze to the title if they stop the Buckeyes. If Ohio State's rejuvenated eleven turns in another upset, the Big Ten race will be scrambled beyond all calculation.

Unexpected defeats for Michigan and Purdue have left Northwestern its greatest chance in Big Ten history to win the title outright. Northwestern tied Michigan in 1925 and again last year but has never had undisputed claim to a Western conference football championship. After the Ohio State game Northwestern plays Illinois, Minnesota, Indiana and Iowa, considered the four weakest teams in the conference.

Michigan met defeat for the first time in 15 games at the hands of Ohio State, superbly directed by Carl Cramer, sophomore quarterback. Ohio State's 20-7 triumph over Michigan is all the more amazing when it is considered the Buckeyes bounced back from a 26-21 defeat at the hands of Vanderbilt a week previous. Ohio State scored on marches of 31 and 46 yards and a 42-yard punt return by Cramer.

A dazzling first period attack that netted three touchdowns enabled Wisconsin to turn back the highly-favored Purdue eleven, 21-14. Purdue came back in the last half to outplay Wisconsin, and scored two touchdowns in the third period but could not shake the Badgers loose from their lead. Kambat, Wisconsin guard, blocked Moss' attempt to punt and recovered the ball behind Purdue's goal line for what proved to be the winning touchdown.

Making the second week of the Big Ten season a complete day of upsets, Iowa's crippled team, badly beaten by Pittsburgh and Texas A. & M., fought Indiana to a scoreless tie.

The Big Ten, which has fared badly in intersectional rivalry this season, divided its two intersectional games last week. Yale, playing in the mid-west for the first time in honor of Coach Amos Alonzo Stagg's 40 years as University of Chicago coach, triumphed over the Maroons, 27-0.

Northwestern took the University of California (Los Angeles) in its stride and won its first game ever played with a Pacific coast team, 19-0.

In the other game played by a Big Ten team, Illinois won from Bradley, 20-0, while Coach Bob Zuppke scouted Michigan for this week's homecoming game at Urbana.

Notre Dame, using four teams, rolled up its biggest total since the opening game of the 1926 season by defeating Drake, 63-0. The Irish, however, lost their seventh fullback since Joe Savoldi withdrew from school last year the week of the Northwestern game. Steve Banas broke a finger and will be out of action 10 days.

## STAPLES EMERGES FROM BEHIND TO DEFEAT RANGERS

C. I. FAILS TO SCORE AFTER FIRST; LOSES BY 20-13

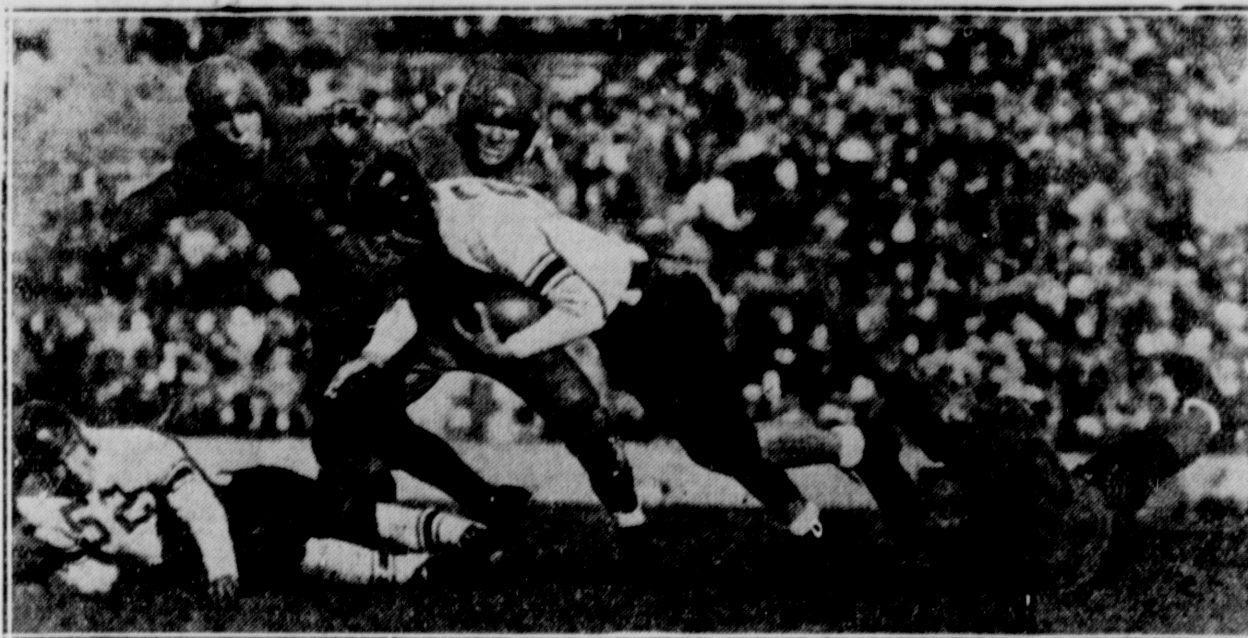

The winning streak of 29 football games without a defeat on the part of the Crosby-Ironton high school football team, came to an end Saturday at Staples when the Rangers lost to Staples, 20-13. Crosby-Ironton started off with a dash and before the end of the first quarter was ended had piled up a lead of 13 to 0, but the spirit of Hawm's boys was not so easily daunted. They gave all they had and gained the necessary result.

Early in the third quarter, when Crosby-Ironton had the ball close to the Staples goal line and attempted a forward pass, it was intercepted by Holliday and carried back 65 yards before he was downed. From that point the score was quickly made, the goal kicked and the score was 13 to 7, with Staples on the small end. Very shortly afterwards another forward pass was intercepted by Hanson and the ball carried back 45 yards, and another touchdown added to the score for Staples, the score being tied.

Hanson distinguished himself again by intercepting another forward pass and carrying it back 70 yards. Soon another touchdown was added to the score for Staples, and Staples was leading with the final score of the game 20 to 13.

The game was distinguished for the sportsmanship displayed, for the lack of penalties imposed, there only being a few and these for minor infractions or for the failure to complete forward passes. Both teams gave their best to the game, and there were but few substitutions.

U. C. L. A. Loses to Northwestern 19-0

NORTHWESTERN-U. C. L. A.

Northwestern University won by 19 to 0 in a game with the University of California at Los Angeles played in Dyche Stadium, Evanston, Ill. Ken Meenan, Purple halfback who scored two of the touchdowns, is snapped in this striking action photo being brought down by the Californians on their 18-yard line in the last quarter.

## JONES SEES WIN FOR GOPHERS OVER IOWA DESPITE HAWKS' TIE WITH INDIANA

By PAUL M. JONES

Big Ten football last Saturday rebuked the prognosticators by early upsets in the "dope bucket." Generally in this conference the tide does not turn until the last of October and the first of November, but the teams seem to be better matched this year than estimated and the setbacks rushed over two strongholds in the conference, at Purdue and Michigan.

At Chicago, where Alonzo Stagg, the grand old coach of the Midway school, has completed 40 years of coaching, met defeat before his alma mater, Yale, as predicted by the decisive score of 27-0. Lack of material has handicapped Stagg the past few years for as an instructor or title winner he has been as successful as any coach in the Big Ten.

Ohio State, which has always had a good team but this year picked only as a scrub eleven, rose to early heights of preparedness, and spanked the cocky Michigan eleven in its own backyard, 30-7. Michigan was runner-up with Northwestern last year as conference champs and was again chosen to divide such honors, so this was the first upset in Big Ten rivalry.

Wisconsin, always a threat in this league, but under Thistlethwaite never able to get going, sprang the second surprise by defeating the huskie lads from Purdue 21-14. It may mean the Badgers will be a real thorn to the conference, but they are so irregular every year that they are hard to follow and know what to expect from them.

Coach Ingwersen's boys at Iowa, which had lost three previous games, braced against the weak team from Indiana at Iowa City and were held to a scoreless tie. Not much was expected from either team this year so not a surprise.

Northwestern, the best team in the Big Ten, continued their march towards another successful year by defeating Slauding's team from the southern branch of California of Los Angeles in an intersectional game, 19-0. This was expected and it was but a thought of the size of the score.

Illinois easily defeated Bradley 20-0 in a "breather." Illinois had been defeated the previous week 7-0 by Purdue so they were out anyway, but you never can tell about this team for Zuppke is resourceful enough to rally his team for future battles and cause trouble.

Minnesota had an open date after the strenuous week-end at Stanford, and now prepares for Saturday's game with Iowa at Minneapolis, which Minnesota ought to win for their first Big Ten victory, and give them a good start on their three tough games with Wisconsin, Northwestern and Michigan. It is the first meeting with the Hawkeyes since their expulsion from the Big Ten for the whole year of 1931.

I always felt the Big Ten was severe with Iowa over the proselyting of their players. Though it had been more open than the other colleges in exposing their deals, no team deserved to be on a Big Ten field in the same proportion. Regardless of denials of the various colleges I have always contended that much was going on that was hard to prove or secretly kept that kept many schools in the running that were just as guilty as Iowa. To me the future meeting of Iowa after the wicked games played there in '28 and '29 would have been far between as they were of the sort that does not leave particularly good feeling between colleges playing a college sport. Because the Gophers lost both 7-6 and 9-7 respectively did not alter the situation that both contests were the dirtiest games ever played in the Big Ten, but could have been altered somewhat by better officiating, to check such playing, but the officials of this conference have never liked Minnesota and any kind of abuse could be handed them and they were forced to like it. I have often wondered why Mr. Griffith, head of the Big Ten, never visited some of these contests and saw for himself what kind of officiating went on, and what one team was allowed to do to another. That is his duty as manager of Big Ten affairs.

## HARVARD, COLUMBIA CO-FAVORITES AS RESULT OF WINS

ARMY FALLS BEFORE HARVARD WHILE COLUMBIA TROUNCES DARTMOUTH

New York, Oct. 19.—(U.P.)—The race for eastern college football honors remained an open competition today after a week-end of surprising games.

No fewer than eight teams stood out as possible leaders of the east although four weeks of play were complete. The teams were: Harvard, New York University, Syracuse, Columbia, Cornell, Pittsburgh, Colgate and Fordham.

Claims to ranking as co-favorites of Harvard and Columbia were based upon well-earned but surprising victories over the Army and Dartmouth. Led by Barry Wood, Harvard stunned a record crowd at West Point's Michie stadium in winning 14-13.

Columbia surprised even its most ardent well-wishers by winning with consummate ease over an apparently over-rated Dartmouth eleven.

New York University won a relatively easy game over Rutgers, 27-7, and now faces a stiff schedule, meeting Colgate, Oregon, Georgia, Fordham and Carnegie Tech.

Pittsburgh, with a record of four victories over slightly regarded foes, will meet Notre Dame at South Bend on Saturday. Pitt downed Western Reserve, 32-0.

Another record was kept clear when Cornell, led once again by Bart Viviano, veteran star back, humbled Princeton, 33-0. Colgate and Syracuse, two splendid New York state teams, also survived. Colgate downed Manhattan, 33-0. Syracuse beat Florida, 33-12.

Fordham lost some prestige by being held to a 6-6 tie with Holy Cross, but the Rams should be able to round out a creditable season of their remaining games.

Blondes Are "Hard Boiled"

Memphis, Tenn.—(U.P.)—"The hardest-boiled girls and women we have at police headquarters are always blondes," says Mrs. Anna Jackson, in charge of the Women's Protective Bureau here. "I don't know why blondes are so much tougher than other types, but they are."

## UPSETS PLAY HAVOC WITH PREDICTIONS IN FOOTBALL GAMES

Results of Saturday's football games played havoc with the pre-game predictions of the prognosticators. But, in face of the startling upsets that rocked the football world, The Daily Dispatch emerged with a record of four won and three lost.

The Daily Dispatch picked Yale to beat Chicago 19 to 0. Old Eli came through to whip Alonzo Stagg's Maroons 27 to 0. Bradley helped us keep a little prestige by dropping a 20 to 0 decision to Illinois. The Daily Dispatch prognostication was 12 to 0. Notre Dame's crushing victory over Drake by a 63 to 0 score was just about two and a half times greater than The Daily Dispatch would have had you believe, predicting a score of 24 to 0. Northwestern's triumph over Southern California by a 19 to 0 score bore out The Daily Dispatch prediction that it would end 7 to 0 for the Evanston lads.

Post-mortem examination of the remaining games reveals that Iowa put up a more stubborn fight than was expected in holding Indiana to a scoreless tie. Ohio State upset the dope by trouncing Michigan 20 to 7 and Wisconsin's surprise victory over Purdue by a 21 to 14 score proved one of the week's greatest upsets.

The Daily Dispatch is not discouraged. And, it will be back next Friday with a score of predictions for this week's games.

## ST. JOHN'S MAKES BID FOR STATE LOOP FOOTBALL HONORS

ENTERS CLASS OF STRONG CONTENDERS WITH IMPRESSIVE WIN OVER AUGSBURG

St. Paul, Oct. 19.—(U.P.)—The threat of the fleetfooted St. John's gridders obtruded into the state conference college football race today as an uncertain but probably potent factor.

Heretofore considered for the past two years as the exclusive property of St. Thomas or St. Olaf the state conference title this year will probably occasion a bitter struggle between four teams.

St. John's entered the strong contender class with its handy win over Augsburg college at Minneapolis Saturday when a set of speedy Johnny backs ran up a total of 25 points while Augsburg was scoreless.

Three inter-city games between rival colleges in Moorhead, St. Paul and Northfield were decided the same way this year as last.

The Moorhead State Teachers college team and the Concordia college eleven battled through four bitter quarters to a scoreless tie, the same result as last year's game.

At Northfield St. Olaf repeated a win over Carleton college, by a score of 25 to 6. It was the Ole's third straight win over Carleton.

St. Thomas college triumphed over Hamline Friday night by a score of 26 to 6, in St. Paul.

The conference standings:

	W	L	Pct.
St. Thomas	2	0	1.000
St. John's	2	0	1.000
Concordia	1	0	1.000
St. Olaf	1	0	1.000
Gustavus Adol.	1	1	.500

# NORTHWESTERN LONE SURVIVOR IN BIG TEN GRID RACE

## WILDCATS FACING BIG TEST IN GAME WITH OHIO STATE

OHIO STATE TOPPLES MICHIGAN AND PURDUE LOSES TO WISCONSIN

Chicago, Oct. 19.—(U.P.)—With two of the favorites already beaten, the Big Ten football race took on added interest today with the prospect of a series of surprises during the remainder of the season.

Michigan, Purdue and Northwestern were favored to go through their conference schedules undefeated and tie for the title, but the second week of the campaign finds Michigan and Purdue already toppled and Northwestern facing a severe test in its first Big Ten game this week.

Northwestern plays Ohio State, Michigan's conqueror, at Columbus Saturday and the Wildcats can breeze to the title if they stop the Buckeyes. If Ohio State's rejuvenated eleven turns in another upset, the Big Ten race will be scrambled beyond all calculation.

Unexpected defeats for Michigan and Purdue has left Northwestern its greatest chance in Big Ten history to win the title outright. Northwestern tied Michigan in 1925 and again last year but has never had undisputed claim to a Western conference football championship. After the Ohio State game Northwestern plays Illinois, Minnesota, Indiana and Iowa, considered the four weakest teams in the conference.

Michigan met defeat for the first time in 15 games at the hands of Ohio State, superbly directed by Carl Cramer, sophomore quarterback. Ohio State's 20-7 triumph over Michigan is all the more amazing when it is considered the Buckeyes bounced back from a 26-21 defeat at the hands of Vanderbilt a week previous. Ohio State scored on marches of 31 and 46 yards and a 42-yard punt return by Cramer.

A dazzling first period attack that netted three touchdowns enabled Wisconsin to turn back the highly-favored Purdue eleven, 21-14. Purdue came back in the last half to outplay Wisconsin, and scored two touchdowns in the third period but could not shake the Badgers loose from their lead. Kaba, Wisconsin guard, blocked Moss' attempt to punt and recovered the ball behind Purdue's goal line for what proved to be the winning touchdown.

Making the second week of the Big Ten season a complete day of upsets, Iowa's crippled team, badly beaten by Pittsburgh and Texas A. & M., fought Indiana to a scoreless tie.

The Big Ten, which has fared badly in intersectional rivalry this season, divided its two intersectional games last week. Yale, playing in the mid-west for the first time in honor of Coach Amos Alonzo Stagg's 40 years as University of Chicago coach, triumphed over the Maroons, 27-0.

Northwestern took the University of California (Los Angeles) in its stride and won its first game ever played with a Pacific coast team, 19-0.

In the other game played by a Big Ten team, Illinois won from Bradley, 20-0, while Coach Bob Zuppke scouted Michigan for this week's homecoming game at Urbana.

Notre Dame, using four teams, rolled up its biggest total since the opening game of the 1926 season by defeating Drake, 63-0. The Irish, however, lost their seventh fullback since Joe Savoldi withdrew from school last year the week of the Northwestern game. Steve Banas broke a finger and will be out of action 10 days.

## STAPLES EMERGES FROM BEHIND TO DEFEAT RANGERS

C.-I. FAILS TO SCORE AFTER FIRST; LOSES BY 20-13

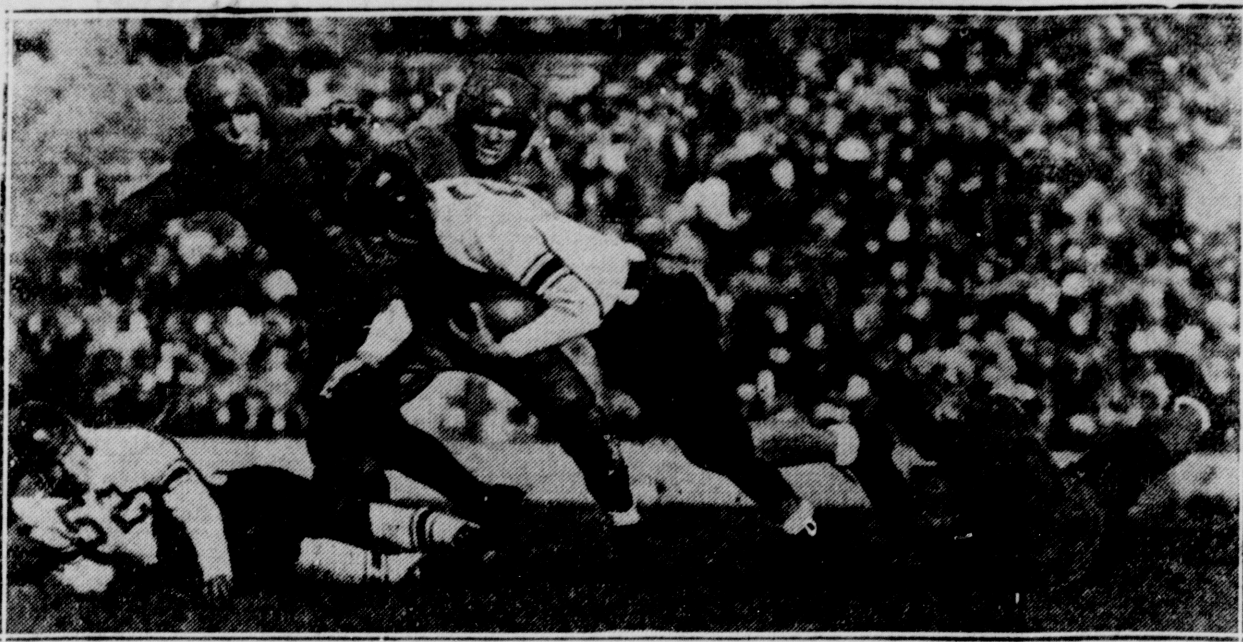

The winning streak of 29 football games without a defeat on the part of the Crosby-Ironton high school football team, came to an end Saturday at Staples when the Rangers lost to Staples, 20-13. Crosby-Ironton started off with a dash and before the end of the first quarter was ended had piled up a lead of 13 to 0, but the spirit of Haw's boys was not so easily daunted. They gave all they had and gained the necessary result.

Early in the third quarter, when Crosby-Ironton had the ball close to the Staples goal line and attempted a forward pass, it was intercepted by Holliday and carried back 65 yards before he was downed. From that point the score was quickly made, the goal kicked and the score was 13 to 7 with Staples on the small end. Very shortly afterwards another forward pass was intercepted by Hanson and the ball carried back 45 yards, and another touchdown added to the score for Staples, the score being tied.

Hanson distinguished himself again by intercepting another forward pass and carrying it back 70 yards. Soon another touchdown was added to the score for Staples, and Staples was leading with the final score of the game 20 to 13.

The game was distinguished for the sportsmanship displayed, for the lack of penalties imposed, there only being a few and these for minor infractions or for the failure to complete forward passes. Both teams gave their best to the game, and there were but few substitutions.

## U. C. L. A. Loses to Northwestern 19-0

NORTHWESTERN-U. C. L. A.

Northwestern University won by 19 to 0 in a game with the University of California at Los Angeles played in Dyche Stadium, Evanston, Ill. Ken Meenan, Purple halfback who scored two of the touchdowns, is snapped in this striking action photo being brought down by the Californians on their 18-yard line in the last quarter.

## JONES SEES WIN FOR GOPHERS OVER IOWA DESPITE HAWKS' TIE WITH INDIANA

By PAUL M. JONES

Big Ten football last Saturday rebuked the prognosticators by early upsets in the "dope bucket." Generally in this conference the tide does not turn until the last of October and the first of November, but the teams seem to be better matched this year than estimated and the setbacks rushed over two strongholds in the conference, at Purdue and Michigan.

At Chicago, where Alonzo Stagg, the grand old coach of the Midway school, has completed 40 years of coaching, net defeat before his alma mater, Yale, as predicted, by the decisive score of 27-0. Lack of material has handicapped Stagg the past few years for as an instructor or title winner he has been as successful as any coach in the Big Ten.

Ohio State, which has always had a good team but this year picked only a scrub eleven, rose to early heights of preparedness, and spanked the cocky Michigan eleven in its own backyard, 20-7. Michigan was runner-up with Northwestern last year as conference champs and was again chosen to divide such honors, so this was the first upset in Big Ten rivalry.

Wisconsin, always a threat in this league, but under Thistlethwaite never able to get going, sprang the second surprise by defeating the huskie lads from Purdue 21-14. It may mean the Badgers will be a real thorn to the conference, but they are so irregular every year that they are hard to follow and know what to expect from them.

Coach Ingwersen's boys at Iowa, which had lost three previous games, braced against the weak team from Indiana at Iowa City and were held to a scoreless tie. Not much was expected from either team this year so not a surprise. Northwestern, the best team in the Big Ten, continued their march towards another successful year by defeating Stauding's team from the southern branch of California of Los Angeles in an intersectional game, 19-0. This was expected and it was but a thought of the size of the score. Illinois easily defeated Bradley 20-0 in a "breather." Illinois had been defeated the previous week 7-0 by Purdue so they were out anyway, but you never can tell about this team for Zuppke is resourceful enough to rally his team for future battles and cause trouble.

Minnesota had an open date after the strenuous week-end at Stanford, and now prepares for Saturday's game with Iowa at Minneapolis, which Minnesota ought to win for their first Big Ten victory, and give them a good start on their three tough games with Wisconsin, Northwestern and Michigan. It is the first meeting with the Hawkeyes since their expulsion from the Big Ten for the whole year of 1931. I always felt the Big Ten was severe with Iowa over the proselyting of their players. Though it had been more open than the other colleges in exposing their deals, no team deserved to be on a Big Ten field in the same proportion. Regardless of denials of the various colleges I have always contended that much was going on that was hard to prove or secretly kept that kept many schools in the running that were just as guilty as Iowa. To me the future meeting of Iowa after the wicked games played there in '28 and '29 would have been far between as they were of the sort that does not leave particularly good feeling between colleges playing a college sport. Because the Gophers lost both 7-6 and 9-7 respectively did not alter the situation that both contests were the dirtiest games ever played in the Big Ten, but could have been altered somewhat by better officiating, to check such playing, but the officials of this conference have never liked Minnesota and any kind of abuse could be handed them and they were forced to like it. PHEASANT HUNTING  
DEATH TOLL TO 3  
IN FIRST WEEKEND

## HALF A DOZEN OTHERS WOUNDED IN FIRST WEEKEND OF SHOOTING

St. Paul, Minn., Oct. 19.—(U.P.)—Three men were killed and half a dozen wounded after the first weekend of the pheasant hunting season as thousands of hunters returned from the fields with limit bags of the gaudy colored birds.

At Albert Lea Dr. Frederick J. Mitchell, 52, of St. Paul was killed when a shotgun charge from the gun of Jack McKechnie, 17, St. Paul, entered his heart as the gun was discharged prematurely.

At Devils Lake, N. D., Warren Childer and John Burkhardt, both 20, were drowned when the canoe in which they were hunting ducks overturned.

Limit bags were reported from the region of Dawson where Sheldon Peterson was shot in the hand forcing the amputation of a finger. More than 100 hunters invaded Dawson over the weekend and swamped all lodging facilities. Clarence Helgeson of Dawson escaped serious injury when his heavy leather jacket stopped a shotgun charge.

Two men were in the Albert Lea hospital today recovering from hunting accidents. Roy Hardy, St. Paul, was wounded in the neck and shoulders by an unknown hunter and Harvey Smith, Ellendale, Minn., was suffering from shot wounds in the abdomen.

Earl Olson, 16, Marna, was wounded in the left hand which was later amputated. Dean Fisk, Fairmont, was struck in the face by buckshot.

At Wheaton Andrew Larson, 17, died in the hospital after an accidental discharge of a shotgun emptied a charge in his hip as he was getting out of an automobile, preparatory to taking the field.

## Letters to the Editor

The Editor Brainerd Dispatch:  
Unemployment

The American public at times bethinks itself of the prerogatives emanating to a free people, and, as such, everyone of us resents being branded a malefactor, either directly or indirectly, collectively or individually.

In the October 14th issue of The Dispatch there appeared a letter by Mr. Henry H. Mattison on the present unemployment situation, in which he places much of the possible solution of the situation at the doors of the employers: If the solution then indirectly the cause. However timely the article may or may not be, and not taking issue with Mr. Mattison as to the truth of existing conditions, I am of the opinion that the question of whether our citizens prefer married women, whose husbands are generally employed, to work in city and county positions, public offices, stores, etc., in times of depression as at present, rests entirely with themselves, or if you prefer, with old man public.

We pride ourselves on our government "By the People and for the People," it follows then that the electorate has only to voice itself sufficiently to bring about a readjustment of certain conditions if such is desired.

I suggest the Dispatch lend to the cause the space used during the past season for baseball statistics, in the form of sponsoring a "straw vote" and from the batting average thus compiled I am sure the incumbents in our county and city offices, commissioners, merchants and other employers will be able to determine very quickly whether a change is desired, and no doubt will be governed accordingly.

Respectfully yours,  
WM. O. BOHMANN.

Buy Minnesota  
Miller Flour

To the Editor of The Daily Dispatch: Practically all of the cheap priced flour being sold today are manufactured by Southwest Mills and Southwest or Kansas wheat is used 100 percent in them.

Every sack of this type flour that a Minnesota farmer buys increases the consumption of Kansas or Southwest wheat and decreases the consumption of Minnesota, or home-grown wheat, by our own farmers.

At present the Minneapolis wheat market is about 20c per bushel higher than the Southwest market. If Minnesota farmers continue to buy Southwest flour, the Minneapolis market will soon be demoralized and the price of Minnesota wheat will drop to the Southwest levels, thereby reducing prices on wheat still further to our Minnesota farmer.

If every Minnesota farmer realized this, he would buy flour made from Minnesota wheat and manufactured by the mills who use his wheat. By doing this it would strengthen the Minneapolis market, result in better prices to the home farmer on his wheat and help the mills to run steadier producing more food for home consumption.

Hold Labor Organizer  
on Liquor Charge

International Falls, Minn., Oct. 16.—(U.P.)—Simeon "Ping" Weir, prominent labor organizer and alleged leader of a rum running gang, was held in custody today on liquor law charges.

Weir was arrested last night by an immigration patrol near the International Falls Country Club as he was crossing the Rainy River. According to members of the patrol, 26 quarts of Canadian liquor was found in Weir's possession.

Weir was a paper manufacturer here for several years and was considered an important catch by prohibition agents.

Swift & Co. have just received a big gray horse to drive on their delivery wagon.

F. E. Kenney left today noon for Minneapolis and St. Paul. Mr. Kenney is to be married tomorrow evening in Minneapolis to Mrs. Carrie Waldemeyer, of that city, if they are both alive, as he puts it. Mrs. Waldemeyer's mother is seriously ill and the ceremony has been hastened at her request.

Miss Vivian Reilly is the winner in The Dispatch contest for the ten box seats for the Maud Fealy entertainment. The entertainment is of a very high order. Miss Reilly's final vote was 2,406, the other contestants having withdrawn.

The fire department was called to the home of Gustav Raymond this afternoon by a fire caused from a gasoline stove. There was no one at home when the fire started so the nature of the origin can not be exactly told. There was some damage to the furniture and to the building.

The following are the marriage licenses granted by the clerk of court for the week end, Oct. 13:

Oct. 8—Geo. C. McDonald and Grace Russell; Alfred Lawrence and May Fletcher.

Oct. 9—Wm. A. Cline and Emily Fletcher; Glenn E. Peck and Lulu B. Hunter.

Mrs. Anton Gilbertson and son George and daughter Lillian and Mrs. P. M. Zakariason with son Hjalmar and daughter Ester visited with Mr. and Mrs. Archibald Saturday and Sunday.

The following is the vote cast in the contest for box party to the Maud Fealy entertainment: Vivian Reilly, 1021; Eunice O'Connor, 173.

J. T. Tyler was at Aitkin today as a witness in a suit to which the Northern Pacific railway was a party.

W. H. Strachen went north in his private car this afternoon.

many of the world's most useful inventions.

At the bedside was every member of the family, summoned Saturday night by Dr. Hubert S. Howe, Edison's personal physician.

Edison was ready to die, Dr. Howe revealed, as the aged genius assured his family he would rather leave this world than leave his burden of age and illness for his loved ones.

Dr. Howe also revealed a cryptic comment of the dying man as he once apparently roused from his fatal slumber. Edison, he said, smiled and spoke: "It is beautiful over there."

Harry Blackmar Granted  
Review by Supreme Court

Washington, Oct. 19.—(U.P.)—Harry M. Blackmar, Denver oil magnate who has lived in Paris since 1925 today was granted a supreme court review of the \$60,000 fine imposed upon him for refusing to return to this country to testify in the Teapot Dome trials.

The court's action brings before it for a final ruling the constitutionality of the Walsh act imposing on American citizens abroad the duty of returning to testify when summoned by United States courts. Blackmar's appeal attacked validity of this enactment.

son's genius, whose inventions merit the world's gratitude."

John Grier Hibben, president of Princeton university.

"Mr. Edison is probably the greatest example of his generation of one who tried and succeeded in bringing out the enormous capacities of the brain."

Samuel Insull, utilities magnate:

"His preeminence in all fields of modern progress... has stamped him as the man who has most profoundly affected development of the standard of living throughout the world during the times in which he lived."

Gerard Swope, president of the General Electric Company:

"His has been a long life, full of many inventions and great achievements which contributed not only to the progress of civilization and the benefit of mankind but also his philosophy of living and his encouragement of youth has been tremendous stimulation, not only to his own generation but to many generations to come."

Charles M. Schwab, steel magnate, to the Edison family:

"You have lost a good and great husband, and I a lifelong friend."

Emil Ludwig, historian and author, and his wife, Elga:

"Lives of great men often remind us we can make our lives sublime and, departing, leave behind us footprints on the sands of time."

Wilbur B. Huston, of Seattle, Wash., winner of Edison's first national scholarship, in 1929:

"His long life of achievement held all the elements that inspire young men to give a purpose to their lives. I feel in his death the loss of a real friend to whose interest in youth I am deeply indebted."

Arthur O. Williams, Jr., of East Providence, R. I., 1930 winner:

"Mr. Edison's death is a great loss because of his contributions to human progress, and those who were fortunate enough to know him personally will miss a strong friend."

Flying Lesson Ends When  
Plane Crashes; 2 Killed

Kansas City, Mo., Oct. 19.—(U.P.)—Death ended a flying lesson for Thos. J. White and his wife, Mrs. Nora White, when their plane crashed near Richard Field here.

Mrs. White, an experienced aviator with a transport pilot's license, took off yesterday with her husband, a private pilot, to give him lessons in vertical banking. The plane was dual controlled, but during the maneuvers it slipped into a tail spin, turned over, and crashed.

Redondo Beach, Cal., Oct. 19.—(U.P.)—Dick Evans, president of the Los Angeles Glider club, was killed yesterday when the wings of his frail craft buckled and catapulted him against the cliffs here while speeding 90 miles an hour.

Stillwater Residents  
Injured in Car Crash

Anoka, Minn., Oct. 19.—(U.P.)—Two Stillwater women who were seriously injured in an automobile accident near Anoka Sunday were to be taken to Minneapolis today for treatment.

The women were Mrs. J. R. Brennan and Mrs. Anna Sacker. Two other women who were riding with Mrs. Brennan and Mrs. Sacker were hurt slightly and continued on to Minneapolis after leaving the more seriously injured members of their party in the hospital here.

Mrs. Sacker is suffering from multiple fractures and Mrs. Brennan from possible internal injuries.

PHEASANT HUNTING  
DEATH TOLL TO 3  
IN FIRST WEEKEND

## HALF A DOZEN OTHERS WOUNDED IN FIRST WEEKEND OF SHOOTING

St. Paul, Minn., Oct. 19.—(U.P.)—Three men were killed and half a dozen wounded after the first weekend of the pheasant hunting season as thousands of hunters returned from the fields with limit bags of the gaudy colored birds.

At Albert Lea Dr. Frederick J. Mitchell, 52, of St. Paul was killed when a shotgun charge from the gun of Jack McKechnie, 17, St. Paul, entered his heart as the gun was discharged prematurely.

At Devils Lake, N. D., Warren Childer and John Burkhardt, both 20, were drowned when the canoe in which they were hunting ducks overturned.

Limit bags were reported from the region of Dawson where Sheldon Peterson was shot in the hand forcing the amputation of a finger. More than 100 hunters invaded Dawson over the weekend and swamped all lodging facilities. Clarence Helgeson of Dawson escaped serious injury when his heavy leather jacket stopped a shotgun charge.

Two men were in the Albert Lea hospital today recovering from hunting accidents. Roy Hardy, St. Paul, was wounded in the neck and shoulder by an unknown hunter and Harvey Smith, Ellendale, Minn., was suffering from shot wounds in the abdomen.

Earl Olson, 16, Marna, was wounded in the left hand which was later amputated. Dean Fisk, Fairmont, was struck in the face by buckshot.

At Wheaton Andrew Larson, 17, died in the hospital after an accidental discharge of a shotgun emptied a charge in his hip as he was getting out of an automobile, preparatory to taking the field.

## Letters to the Editor

The Editor Brainerd Dispatch:  
Unemployment

The American public at times thinks itself of the prerogatives emanating to a free people, and, as such, everyone of us resents being branded a malefactor, either directly or indirectly, collectively or individually.

In the October 14th issue of The Dispatch there appeared a letter by Mr. Henry H. Mattison on the present unemployment situation, in which he places much of the possible solution of the situation at the doors of the employers; if the solution then indirectly the cause. However timely the article may or may not be, and not taking issue with Mr. Mattison as to the truth of existing conditions, I am of the opinion that the question of whether our citizens prefer married women, whose husbands are generally employed, to work in city and county positions, public offices, stores, etc., in times of depression as at present, rests entirely with themselves, or if you prefer, with old man public.

We pride ourselves on our government "By the People and for the People," it follows then that the electorate has only to voice itself sufficiently to bring about a readjustment of certain conditions if such is desired. I suggest the Dispatch lend to the cause the space used during the past season for baseball statistics, in the form of sponsoring a "straw vote" and from the batting average thus compiled I am sure the incumbents in our county and city offices, commissioners, merchants and other employers will be able to determine very quickly whether a change is desired, and no doubt will be governed accordingly.

Respectfully yours,  
WM. O. BOHRMANN.

Buy Minnesota  
Miller Flour

To the Editor of The Daily Dispatch: Practically all of the cheap priced flour being sold today are manufactured by Southwest Mills and Southwestern or Kansas wheat is used 100 percent in them.

Every sack of this type flour that a Minnesota farmer buys increases the consumption of Kansas or Southwestern wheat and decreases the consumption of Minnesota, or home-grown wheat, our own farmers produce.

At present the Minneapolis wheat market is about 20c per bushel higher than the Southwest market. If Minnesota farmers continue to buy Southwest flour, the Minneapolis market will soon be demoralized and the price of Minnesota wheat will drop to the Southwest levels, thereby reducing prices on wheat still further to our Minnesota farmer.

If every Minnesota farmer realized this, he would buy flour made from Minnesota wheat and manufactured by the mills who use his wheat. By doing this it would strengthen the Minneapolis market, result in better prices to the home farmer on his wheat and help the mills to run steadily producing more food for home consumption.

A Reader

Editor's Note: The Daily Dispatch welcomes the opinions of its readers on subjects of local interest. The writer of the above letter is known to the Daily Dispatch but requested that his name be omitted. The Daily Dispatch is willing to do this if requested. But, all letters to the editor must be signed as an evidence of good faith. If no signature appears on the letter it will not be used.

many of the world's most useful inventions.

At the bedside was every member of the family, summoned Saturday night by Dr. Hubert S. Howe, Edison's personal physician.

Edison was ready to die, Dr. Howe revealed, as the aged genius assured his family he would rather leave this world than leave his burden of age and illness for his loved ones.

Dr. Howe also revealed a cryptic comment of the dying man as he once apparently roused from his fatal stupor. Edison, he said, smiled and spoke: "It is beautiful over there."

Harry Blackmar Granted  
Review by Supreme Court

Washington, Oct. 19.—(U.P.)—Harry M. Blackmar, Denver oil magnate who has lived in Paris since 1925 today was granted a supreme court review of the \$60,000 fine imposed upon him for refusing to return to this country to testify in the Teapot Dome trials.

The court's action brings before it for a final ruling the constitutionality of the Walsh act imposing on American citizens abroad the duty of returning to testify when summoned by United States courts. Blackmar's appeal attacked validity of this enactment.

son's genius, whose inventions merit the world's gratitude."

John Grier Hibben, president of Princeton university.

"Mr. Edison is probably the greatest example of his generation of one who tried and succeeded in bringing out the enormous capacities of the brain."

Samuel Insull, utilities magnate:

"His preeminence in all fields of modern progress... has stamped him as the man who has most profoundly affected development of the standard of living throughout the world during the times in which he lived."

Gérard Swope, president of the General Electric Company:

"His has been a long life, full of many inventions and great achievements which contributed not only to the progress of civilization and the benefit of mankind but also his philosophy of living and his encouragement of youth has been tremendous stimulation, not only to his own generation but to many generations to come."

Charles M. Schwab, steel magnate, to the Edison family:

"You have lost a good and great husband, and I a lifelong friend."

Emil Ludwig, historian and author, and his wife, Elga:

"Lives of great men often remind us, we can make our lives sublime and, departing, leave behind us footprints on the sands of time."

Wilber B. Huston, of Seattle, Wash., winner of Edison's first national scholarship, in 1929:

"His long life of achievement held all the elements that inspire young men to give a purpose to their lives. I feel in his death the loss of a real friend to whose interest in youth I am deeply indebted."

Arthur O. Williams, Jr., of East Providence, R. I., 1930 winner:

"Mr. Edison's death is a great loss because of his contributions to human progress, and those who were fortunate enough to know him personally will miss a strong friend."

Flying Lesson Ends When  
Plane Crashes; 2 Killed

Kansas City, Mo., Oct. 19.—(U.P.)—Death ended a flying lesson for Thos. J. White and his wife, Mrs. Nora White, when their plane crashed near Richard Field here.

Mrs. White, an experienced aviator with a transport pilot's license, took off yesterday with her husband, a private pilot, to give him lessons in vertical banking. The plane was dual controlled, but during the maneuvers it slipped into a tail spin, turned over, and crashed.

Redondo Beach, Cal., Oct. 19.—Dick Evans, president of the Los Angeles Glider club, was killed yesterday when the wings of his frail craft buckled and catapulted him against the cliffs here while speeding 90 miles an hour.

Anoka, Minn., Oct. 19.—(U.P.)—Two Stillwater women who were seriously injured in an automobile accident near Anoka Sunday were to be taken to Minneapolis today for treatment.

The women were Mrs. J. R. Brennan and Mrs. Anna Sacker. Two other women who were riding with Mrs. Brennan and Mrs. Sacker were hurt slightly and continued on to Minneapolis after leaving the more seriously injured members of their party in the hospital here.

Mrs. Sacker is suffering from multiple fractures and Mrs. Brennan from possible internal injuries.

BRAINERD EXTENDS WELCOME TO OFFICERS, MEMBERS OF PARENT-TEACHERS' ASS'N.

Welcome to officials and members of the Minnesota Congress, Parent-Teachers association in annual session in Brainerd!

Brainerd is likewise delighted to greet the nationally known figures of the teaching profession and other national figures and speakers who have been brought to this city to address the convention.

Brainerd is particularly appreciative of the apparent interest shown in her by the parents and teachers. This is extraordinarily significant in that this is the first time the state organization has brought its membership

here for the annual convention.

The Daily Dispatch and, it believes it voices the sentiment of the people of Brainerd, is happy over the success of the Minnesota Congress, Parent-Teachers association, a host of members of which she has in her midst and who have demonstrated to be needed and valuable cogs and infinitely necessary in all movements for the advancement of education through their duty as parents.

May you feel that you have been received here most cordially and

may your stay be profitable and enjoyable as well. Because of the purpose of your organization, Brainerd regards you as an integral and vitally necessary part of our state, our community, contributing to their welfare through the development of the youth and by your activities in making life more enjoyable for us.

May Brainerd find a permanent place in your affections and may you visit us again. The latch-string of our city is always out to members of the Minnesota Congress, Parent-Teachers association, and their guests.

MINDA URGES QUEST FOR HAPPINESS IN STRIVING FOR GOAL

Speaking on "The Challenge of Modern Life" at the pre-convention service of the Minnesota Congress of Parents and Teachers Association, Rabbi Albert G. Minda made a plea to his audience to throw off the shackles of "quantity mindedness" and adopt a "new theory on life, one of striving to gain one's goal in life and acquiring happiness through efforts put forth to reach the goal."

"America is suffering from the materialism of 'quantity mindedness.' It has entered into our schools, our cities, our lives and has overshadowed in many instances the true qualities of life and achievement," he said.

Rabbi Minda's sermon was delivered to an audience that filled all but a few seats of the Washington high school auditorium last evening. It was part of a program arranged through the cooperation of Brainerd churches, P. T. A. leaders, The Ladies Choral Club and an orchestra comprising Brainerd musicians ably assisted in making the service one of note.

Blessings on the State P. T. A. convention now in session here were asked in prayers. Rev. Floyd A. Kufus delivered the invocation. Rev. August Samuelson gave the scripture reading, Rev. Edgar A. Vallant lead in prayer and Rev. Charles M. Brandon pronounced the benediction.

"Accumulation of wealth is not a criterion of success. Character exemplified success," Rabbi Minda said as he discussed great men of this country who gained success but failed to store up riches.

The speaker discussed the problem of moral anarchy shown by lawlessness.

"Law stands supreme in all phases of life. Without it the people would drift into chaos and turn savage. Real freedom in true self expression cannot be attained by disregarding the law," he stated.

"In the last analysis, the secret of human living involves pain and unhappiness through striving to reach one's goal but happiness can be found in those valiant efforts put forth to gain the goal," Rabbi Minda said in his concluding remarks.

Dr. A. K. Cohen presided as chairman of the service.

"How Health Agencies and Parent-Teacher Associations May Co-operate" is the subject Mrs. J. A. Thabes, Brainerd, has been assigned. She will be heard Tuesday.

## MINDA URGES QUEST FOR HAPPINESS IN STRIVING FOR GOAL

Speaking on "The Challenge of Modern Life" at the pre-convention service of the Minnesota Congress of Parents and Teachers Association, Rabbi Albert G. Minda made a plea to his audience to throw off the shackles of "quantity mindedness" and adopt a new theory on life, one of striving to gain one's goal in life and acquiring happiness through efforts put forth to reach the goal.

"America is suffering from the materialism of 'quantity mindedness.' It has entered into our schools, our cities, our lives and has overshadowed in many instances the true qualities of life and achievement," he said.

Rabbi Minda's sermon was delivered to an audience that filled all but a few seats of the Washington high school auditorium last evening. It was part of a program arranged through the co-operation of Brainerd churches, P. T. A. leaders, The Ladies Choral Club and an orchestra comprising Brainerd musicians ably assisted in making the service one of note.

Blessings on the State P. T. A. convention now in session here were asked in prayers. Rev. Floyd A. Kufus delivered the invocation, Rev. August Samuelson gave the scripture reading, Rev. Edgar A. Vallant lead in prayer and Rev. Charles M. Brandon pronounced the benediction.

"Accumulation of wealth is not a criterion of success. Character exemplified success," Rabbi Minda said as he discussed great men of this country who gained success but failed to store up riches.

The speaker discussed the problem of moral anarchy shown by lawlessness.

"Law stands supreme in all phases of life. Without it the people would drift into chaos and turn savage. Real freedom in true self expression cannot be attained by disregarding the law," he stated.

In the last analysis, the secret of human living involves pain and unhappiness through striving to reach one's goal but happiness can be found in those valiant efforts put forth to gain the goal," Rabbi Minda said in his concluding remarks.

Dr. A. K. Cohen presided as chairman of the service.

"How Health Agencies and Parent-Teacher Associations May Co-operate" is the subject Mrs. J. A. Thabes, Brainerd, has been assigned. She will be heard Tuesday.

# P. T. A. GROUPS REPRESENT GREAT FORCE IN SCHOOL WELFARE

## SINGLE STANDARD IN BETTERMENT OF SCHOOLS, PREVAILS

EIGHT ORGANIZATIONS ACTIVE  
IN BRAINERD; HISTORY OF  
EACH GIVEN

Strongest unified force in the betterment of the school, the establishment of better relations with the teacher, organizations that acquaint the parent with a better understanding of the school life his son or daughter participates in, the Parent-Teacher organizations of Brainerd represent to this city the most important phase of school welfare.

Soon after the Parent-Teacher movement became known in Minnesota parents in this city were quick to realize the advantages such an organization afforded.

Today P. T. A. groups have a membership in Brainerd of greater than 400. There are eight associations in Brainerd, each with their own programs in mind but all with the avowed singular purpose of benefitting the schools and making educational facilities and opportunities the best possible for the children of Brainerd.

### Conscientious to Principles

Faithfulness to the organization forms a strong part in the code of each group. This will be displayed throughout the state convention now in session here by all members who can possibly arrange their affairs being present. They seek further knowledge of the fundamentals of their organization and are eager to learn that which may benefit the welfare of their groups.

The Central P. T. A. council comprises chiefly leaders in P. T. A.'s throughout the city who formed such a body that individual associations might benefit by the combined forces of all groups.

Each public school in the city is proud to point to its P. T. A. The Parent Teachers organizations in the city are those serving the following schools: Garfield, Harrison, Lincoln, Lowell, Riverside, Washington, Whittier and in addition the Central Council.

Compilation of data concerning the history and records of each association in the city was made possible through the support of officers of each.

Reports from each were as follows:

### Garfield P. T. A. Organized Before School Named

The first meeting of the Garfield P. T. A. was held on Dec. 7, 1922. The following officers were elected:

President, Mrs. John Jackson.  
Vice President, Charles Swindell.  
Secretary, Mrs. Charles Hauer.

At the next meeting a committee was appointed to draw up the by-laws of the organization. A name for the school was discussed. The name Garfield was chosen. A basket social was given in April from which \$31.76 was realized.

The kitchen was furnished with dishes, a table, a cupboard, and an oil stove. Chairs were purchased.

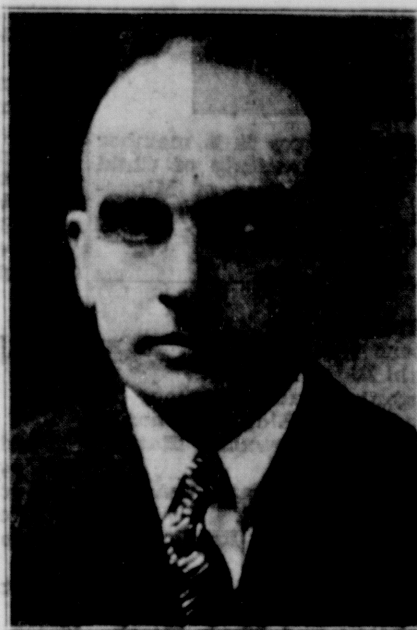

**Boys Band Formed**  
A boys band was organized during the second year. A basket social and home talent were given to raise money.

During the year 1924-1925 money was raised through lunches and socials. More new dishes were purchased, money was donated for the children's Christmas treats and for Thanksgiving baskets.

In 1926 a Victrola was purchased for the school by the P. T. A. In 1929 a play was very successfully given from which \$52.65 was realized. At the end of that year there was \$59.21 in the treasury.

Last year there were 25 paid up members.

The present officers of the Garfield P. T. A. are:

President, E. L. Thomas.  
Vice President, Richard Wayt.  
Secretary, Miss Agnes Templeton.  
Treasurer, Mrs. Albert Converse.

**Harrison P. T. A. Formed On February 26, 1915**

The meeting called to organize the Harrison P. T. A. was held Feb. 26, 1915. Mrs. W. C. Cobb presided until Miss Hannah Falconer was chosen chairman.

The first nominating committee comprised Mrs. M. J. Reis, Mrs. Thayer, Miss Barker, Miss Canniff, Mrs. W. McClusky.

At the meeting held March 12, 1915, the following officers were elected for 1915-1916:

President, Mrs. W. Northrup.  
Vice President, Mrs. E. Jones.  
Secretary, Miss Clara Erickson.  
The membership then was 35.

**Present Officers Listed**

The present officers for 1931-1932 are:

President, R. Lindberg.  
First Vice Pres., Harold Whitlock.  
Second Vice Pres., Axel Anderson.  
Secretary, Miss Tena Balken.  
Treasurer, Mrs. Geo. B. Falconer.

The paid up membership now is 70.

**Lincoln P. T. A. Is First**

**Known as Mother's Club**

The Lincoln P. T. A. was organized Oct. 10, 1917, as the Washington-Lincoln Mothers' Club. The temporary chairman was Mrs. F. M. Hagberg.

The first president was Mrs. Ben Armstrong. Outstanding events the first two years were in helping to establish a rest room, secure a truant officer and assist the Southeast Brainerd Mothers' Club to care for a family until a mothers' pension was secured.

From 1919 to 1921 there were three presidents: Mrs. A. M. Opsahl, Mrs. Walter Kunitz and a Mrs. Reise.

In March, 1920, the name was changed to Washington-Lincoln Parent-Teacher Association. In 1921 a large Brunswick phonograph was purchased for the Lincoln building, funds secured by sponsoring a "movie."

In 1923 Mrs. Carl Bently was elected president and Mrs. R. H. Paine vice president. In this year much of the work of the Lincoln P. T. A. of today had its beginning. The P. T. A. went on record and supported a resolution for a one mill tax for public library purposes. The yearly pledge to the local Child Welfare Board was given.

Several worthwhile projects in the Lincoln building were taken care of.

**First Delegate Selected**

The first delegate, Mrs. A. M. Opsahl, was sent to the state convention and we took our first membership in the state and national organization.

Our first annual carnival or money maker was given to secure funds to carry on the work. In 1923-24, the first efforts to secure more playground at the Lincoln were made; the first milk served to underweight children. Mrs. Sam Newman was sent to Duluth to the state convention.

In the fall of 1925 the Washington-Lincoln P. T. A. and thereafter was known as the Lincoln P. T. A. The meetings were held every month alternately, afternoons and evenings, afternoon meetings were devoted mostly to business and good programs, with talks pertaining to our work in the evening. Mrs. R. H. Paine was president. The playground equipment was taken over from the city Park Board, extensive repairs made and much new equipment added. The by-laws of the state and national were adopted. In October, 1925, Mrs. A. G. Patterson was sent to Marquette to the convention, the Whittier P. T. A. assisting with the expenses.

**Pledge Building Support**

In the years 1926-27 and 28, Mrs. Roy Hall was president. During this time along with the regular work, the parent-teacher was instrumental in placing a large set of swings on the playground and securing the playground fence on the highway, sharing the expenses with the Board of Education.

Mrs. Ray Paine was sent to the state convention at St. Paul. Mrs. Roy Hall went to the state convention at Fergus Falls. In 1928 the Lincoln went on record as pledging their support to the Board of Education in their building program. In 1929 much time and effort was extended in trying to have a kindergarten established in the city schools, but lack of room and crowded conditions interfered with this project.

In September, 1928, Frank E. Little became president. The usual work of the association was carried on and Mrs. Frank Little was sent to St. Cloud to the state convention.

**Buy Playground Equipment**

New playground equipment was purchased and our tennis court put in with the assistance of the Board of Education. An all-electric radio was installed in the spring of 1930, partly won in a pasteurized milk contest.

The present officers of the Lincoln P. T. A. are: Mrs. Louis Hohman, president; Mrs. Frank Little, vice presi-

dent; Mrs. O. B. Johnson, treasurer, and Miss Millie Germaine, secretary. There are ten standing committees: hostess, program, membership, recreation, hospitality, publicity, milk, child welfare magazine, relief and ways and means. The officers are elected for two years; programs are planned as nearly as possible in keeping with the plans mapped out by the state and national P. T. A.

Last year's project was "Lighted well attended, "Dads' Night" and the Candlelighting program for Founders Day in February, being outstanding. We assisted Miss Michael in taking care of a tonsil case, pasteurized milk

for the underweight children was sponsored and a Christmas treat for the 330 children in the building is also an annual event.

**Support Retirement Bill**

We supported the Teachers Retirement Bill, signed resolutions for the State Psychopathic Hospital and did our bit for the new junior high building.

Last year's project was "Lighted Playgrounds" for the city. We are still working on this. Our meetings are held the second Tuesday in each month, every one is invited to attend. Come and visit us.

was extended in trying to have a kindergarten established in the city

schools, but lack of room and crowded conditions interfered with this project.

In September, 1928, Frank E. Little became president. The usual work of the association was carried on and

Mrs. Frank Little was sent to St. Cloud to the state convention.

#### Buy Playground Equipment

New playground equipment was purchased and our tennis court put in

with the assistance of the Board of Education. An all-electric radio was

installed in the spring of 1930, partly won in a pasteurized milk contest.

The present officers of the Lincoln P. T. A. are: Mrs. Louis Hohman, president; Mrs. Frank Little, vice presi-

dent; Mrs. O. B. Johnson, treasurer, and Miss Millie Germaine, secretary. There are ten standing committees: hostess, program, membership, recreation, hospitality, publicity, milk, child welfare magazine, relief and ways and means. The officers are elected for two years; programs are planned as nearly as possible in keeping with the plans mapped out by the state and national P. T. A.

Last year's project was "Lighted well attended, "Dads' Night" and the Candlelighting program for Founders Day in February, being outstanding. We assisted Miss Michael in taking care of a tonsil case, pasteurized milk

for the underweight children was sponsored and a Christmas treat for the 330 children in the building is also an annual event.

#### Support Retirement Bill

We supported the Teachers Retirement Bill, signed resolutions for the State Psychopathic Hospital and did our bit for the new junior high building.

Last year's project was "Lighted Playgrounds" for the city. We are still working on this. Our meetings are held the second Tuesday in each month, every one is invited to attend. Come and visit us.

#### Riverside P. T. A. prospers From First Meeting

The Riverside P. T. association was organized in the year 1920, Oct. 12 by Mrs. Adeline Smiley, acting as president for several terms and Mrs. Emma Hawkins as secretary and treasurer. Continuing to grow, and in 1922 a constitution and bylaws were presented and accepted by the members of the P. T. A.

#### Build School Addition

In the fall of 1922 a "house warming" was held to celebrate the completion of the new addition to the Riverside school.

In 1923 money was raised for a new victrola and historical pictures.

In 1923 the members voted on having a library which was also made possible.

In 1924 Miss Devins became president and was president for several years. In 1927 Ralph Falconer became president and was president for two years.

The Riverside P. T. A. joined the State P. T. A. in 1928 with 28 members and have continued to grow.

#### Minstrel Show Sponsored

In February 1929 the minstrel show was put on by the members of the P. T. A. for a record breaking crowd. A sum of \$21.57 for the organization was raised.

The new president for the year 1931 is Mrs. Libby Bourgeois. Mrs. Anna Orman is secretary and Mrs. Ray Bourquin is treasurer.

#### Washington P. T. A. Is Guardian of High School

The Washington P. T. A., guardian body of the high school was formed the evening of March 4, 1930, and officers then elected are now in effect with the exception of Miss Agnes Templeton who succeeded Miss Mayme Britton as third vice president.

#### Officers are:

President—F. T. Campbell.

### Other Prominent Convention Speakers

Mrs. Mrs. A. M. Opsahl who served for two years.

Mrs. W. Folsom was elected and served till April, 1925, after which Mrs. W. W. Bane held the office until 1927. Mrs. J. Heald, R. T. Campbell, Dr. A. K. Cohen and at present Mrs. T. E. Jones is acting president.

The Whittier P. T. A. has accomplished many things during the past eleven years. It has secured larger and better lights and improved sanitary conditions, also purchased a great deal of play ground equipment. Two beautiful bird houses were presented which are inhabited each year by martins and blue birds. Many books have been donated and added to the splendid library. A few years ago many magazines and old papers were collected and sold with the proceeds a number of beautiful pictures were procured for this school. Through the efforts of Miss L. Barrett who has acted as vice-president during all these years, many beautiful trees have been procured to beautify the grounds.

Shrubbery and flowers have been donated through the efforts of the P. T. A. A fine pre-school mothers' class through the assistance of Miss Mary Walsh has been in existence for the past three years, in which a study of child health, discipline and other child problems are discussed. The P. T. A. with the assistance of the city nurse was able to distribute milk to the pupils.

A few years ago the P. T. Association celebrated Miss Barrett's twentieth anniversary in this school and owing to the crowded conditions at that time the changing of two rooms into the present Whittier auditorium was accomplished.

The Whittier P. T. A. is an energetic and enthusiastic group and the Whittier slogan is:

"Good, better, best,  
We will never rest  
Till our good is better  
And our better best."

Mrs. B. F. Langworthy is first vice president of the National Congress of Parents and Teachers and aide to the national president. She has held the office of vice president of the congress at different times. She has also held other posts on the National Board of Managers. In her own city of Chicago, she has been president of the Woman's Club of the city and was a former president to the Illinois Congress of Parents and Teachers.
